May 26, 1999.

Take notice that on May 21, 1999, Northern Natural Gas Company (Northern) 1111 South 103rd Street, Omaha, Nebraska 68124-1000, filed in Docket No. CP98-532-000 an application pursuant to Section 7(c) of the Natural Gas Act for authorization to upgrade and operate Unit #6 at the Farmington Compressor Station in Dakota County, Minnesota, in order to increase the mainline capacity so that Northern can provide incremental/firm transportation service to Reliant Energy Minnegasco (Minnegasco), all as more fully set forth in the application on file with the Commission and open to public inspection. This filing may also be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (please call (202) 208-2222 for assistance).

Specifically, Northern states that the upgrade would involve the modification of the unit controls of the electric motor driven reciprocating compressor without any ground disturbance.
