

practices. Effective enforcement of the standard is particularly necessary in light of the hazardous nature of asbestos. In order to ensure compliance with the standards, adequate recordkeeping is necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

Burden Statement: The Agency computed the burden for each of the recordkeeping and reporting requirements applicable to the industry. Where appropriate the Agency identified specific tasks and made assumptions, while being consistent with the concept of burden under the Paper Work Reduction Act.

The estimate was based on the assumption that there was an average of 70,380 sources of demolitions or renovations per year (completed by approximately 6,900 contractors), and that 3,447 sources for milling, manufacturing, fabricating and waste disposal were subject to the standard. For demolitions and renovations, it was estimated that it would take 1 hour for each of the 6,900 respondents to read the instructions, 164,565 person-hours to write notifications (assuming that there are 12,420 renotifications at 0.25 person-hours per renotification) and excepted waste shipment record reports, 6.7 person-hours per respondent to record information and mark vehicles, and 12 person-hours per respondent to train supervisors. For milling, manufacturing, and fabricating, it was estimated that there was 430 respondents, and that it would take 1 person-hour each to read the instructions, 106.3 hours per respondent to record the information and mark vehicles, 3 person-hours per respondent to write the reports and develop the record system. For waste disposal, it was estimated that there were 3,017 respondents, and that it would take each respondent 1 hour to read the instructions, approximately 23 person-hours per respondent to create and gather the information, and 3.5 person-hours per respondent to write the reports.

Dated: May 27, 1999.

Bruce R. Weddle,

Acting Director, Office of Compliance.
