

(WMECO), Northeast Utilities Service Company (NUSCO), Consolidated Edison Energy, Inc., and Consolidated Edison Energy, Massachusetts, Inc. (CEEMI), tendered for filing executed signature pages to the Tariff No. 9, service agreement filed on May 25, 1999, in the above-referenced dockets.

Any person desiring to be heard or to protest such filing should file a motion to protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before June 22, 1999. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-222 for assistance).

Linwood A. Watson, Jr.,
Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PL98-7-000]

Technical Conference on Year 2000 Issues for the Oil and Natural Gas Sector; Notice of Technical Conference

June 1, 1999.

Take notice that the Federal Energy Regulatory Commission (FERC) is sponsoring a technical conference to be held on Tuesday, June 29, at 10:00 a.m., in the Commission Meeting Room at 888 First Street, NE, Washington, DC 20426. This conference is being held as an outreach for the President's Council on Year 2000 Conversion (Council), which designated FERC as the lead agency for the Oil and Gas Sector of its Energy Working Group. The conference will be hosted by the Natural Gas Council (NGC) and the American Petroleum Institute (API). All interested persons are invited to attend.

The third report in a series of quarterly assessments of Y2K readiness efforts will be presented by the industry associations that are part of the Council's Oil and Gas Sector Working

Group, from the April survey which was distributed by the industry associations to individual companies. Survey results will be compiled and aggregated by industry associations so that individual company responses remain anonymous. This conference will focus on promoting awareness of Year 2000 issues and coordinating information sharing on testing and solutions among companies in the oil and natural gas industries rather than internal solutions of individual companies.

The proposed agenda for the conference is as follows:

Opening Remarks
Introduction to Technical Conference
Industry Progress and Survey Results
Inter-Industry Efforts,
Interdependencies Workshop
A Municipal Perspective
International Supply Chain
Dependencies
Customer Communications Efforts
Overview of Industry/Company Drills
Industry Audits
Questions and Answers

The Oil and Gas Sector has developed a Website (www.ferc.fed.us) that is linked to the Council's Website (www.y2k.gov), where the results and other related information will be posed and made available to the public.

The public may participate during question and answer periods, but no witness panels will be established. Written comments are welcome at any time and should reference Docket No. PL98-7-000. For additional information, please contact Donna La May at (202) 501-2341 or by electronic mail at "donna.lamay@ferc.fed.us."

The Capitol Connection offers all Open and special FERC meetings *live* over the Internet as well as, via telephone and satellite. For a reasonable fee, you can receive these meetings in your office, at home or anywhere in the world. To find out more about The Capitol Connection's live internet, phone bridge or satellite coverage contact David Reininger or Julia Morelli at the Capitol Connection (703-993-3100) or visit our website (www.capitolconnection.gmu.edu). The Capitol Connection also offers FERC Open Meetings through its Washington, D.C. area television service.

Linwood A. Watson, Jr.,
Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6355-7]

Notice of Stakeholder Meeting on the Revision to Federal Underground Injection Control (UIC) Requirements for Class I—Municipal Wells in Florida

AGENCY: Environmental Protection Agency.

ACTION: Notice; announcement of stakeholder meeting.

SUMMARY: The U.S. Environmental Protection Agency (EPA) will hold a public meeting to gather information and collect opinions from parties who will be affected by or are otherwise interested in the Federal Underground Injection Control Requirements for Class I—Municipal Wells in Florida. EPA will consider comments and views expressed at this meeting in developing the final proposed regulation. EPA encourages the full participation of all stakeholders throughout this process.

DATES AND LOCATION: The stakeholder meeting will be held on Wednesday, July 7, 1999, 9:30 a.m. to 4:00 p.m. EDT.

ADDRESSES: The July 7, 1999 stakeholder meeting will be held in the Public Room of the Florida Department of Environmental Protection, Southeast District, 400 North Congress Ave., West Palm Beach, FL 33401.

To register for the meeting, please contact the EPA Safe Drinking Water Hotline at 1-800-426-4791, or Nancy H. Marsh, EPA Region 4, Ground Water & UIC Section at (404) 562-9450. Participants registering in advance will be mailed a packet of materials before the meeting. Interested parties who cannot attend the meeting in person may participate via conference call and should register with the Safe Drinking Water Hotline. Conference lines are limited and will be allocated on the basis of first-reserved, first served.

FOR FURTHER INFORMATION CONTACT: For general information on meeting logistics, please contact the Safe Drinking Water Hotline at 1-800-426-4791. For information on the activities related to this meeting, contact: Nancy H. Marsh, U.S. EPA Region 4 at (404) 562-9450 or e-mail marsh.nancy@epa.gov or Howard Beard, U.S. EPA at (202) 260-8796 or e-mail at beard.howard@epa.gov.

SUPPLEMENTARY INFORMATION: EPA developed underground injection control regulations for Class I wells to protect underground sources of drinking water (USDWs). These regulations, found in 40 CFR parts 144 and 146, set technical standards which would *not*
