

fail to notify FAA by the deadline date that they intend to use all or a portion of their entitlement funds in FY 1999 may have access to those funds in FY 1999 after August 6, only if legislation is enacted prior to October 1, 1999, to authorize the AIP beyond September 30. This includes prior year entitlement funds that remain available to an airport sponsor only through fiscal year 1999. In all other cases, airport sponsors may request unused entitlements after September 30, 1999.

The FAA views the receipt of this notice from the sponsors of primary commercial service airports as particularly important this fiscal year. The ability to use the contract authority associated with unused entitlement funds on a discretionary basis during the current truncated program will allow FAA to obligate additional critically needed AIP funds by August 6. This abbreviated "year-end conversion" will result in more discretionary dollars for airport development. For these reasons, the FAA will rely heavily upon the extent to which responses to the required notice indicate the availability of unused entitlement funds for discretionary use. Inasmuch as the FAA will be able to obligate these funds after August 6 as entitlements only with the enactment of follow-on authorizing legislation, sponsors are advised to give careful consideration to decisions related to the use of entitlement funds during fiscal year 1999.
