I. Background

The Environmental Protection Agency published a notice of availability on April 28, 1999 (64 FR 22820) for the Agency's Report to Congress on Fossil Fuel Combustion Wastes that is required by section 8002(n) of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6982(n). Please see the April 28, 1999 notice for particulars on the purpose and content of the Report to Congress.

The April 28, 1999 notice also announced a 45-day public comment period on the Report to Congress, which was to end on June 14, 1999. In response to that notice, numerous parties have requested that EPA extend the public comment period by up to six months. EPA is, however, currently required by a court-approved consent

decree in *Gearhart v. Reilly*, Civil No. 91-2345 (D.D.C.) to complete the regulatory determination by October 1. EPA would not be able to meet this deadline if the Agency granted any extension to the comment period. The Agency is currently discussing the possibility of an extension of this deadline with the parties to the consent decree. Such an extension would in turn allow the Agency to grant an extension of the public comment period. However, unless and until the court-approved schedule is modified, the Agency is bound to work towards completing the regulatory determination under the current schedule. Therefore, interested parties should be prepared to submit their comments by the current June 14, 1999 deadline for the receipt of public comments.

In the event the current court-ordered schedule for completing the regulatory determination is extended, the Agency will promptly publish a notice in the **Federal Register** extending the deadline for the receipt of public comments.
