[Project No. 1494-171 Oklahoma]

Grand River Dam Authority; Notice of Availability of Draft Environmental Assessment

June 4, 1999.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47910), the Office of Hydropower Licensing (OHL) has reviewed an application for approval of additional marina facilities. Grand River Dam Authority proposes to permit Dennis Blakemore, d/b/a Honey Creek Landing, Ltd. (permittee), to modify an existing commercial marina facility located on Grand Lake's Honey Creek adjacent to the Honey Creek Bridge (US Highway 59). The proposed modifications include the relocation of a fuel dock from its approved location, about 845 feet from the northern shoreline to a new (present) location, about 130 feet from the northern

shoreline. Further, the permittee proposes to replace four existing boat slips with a building containing a business office, bathhouse, and laundromat. The Pensacola Project is on the Grand River, in Craig, Delaware, Mayes, and Ottawa Counties, Oklahoma.

The DEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the DEA and be obtained by calling the Commission's Public Reference Room at (202) 208-1371. In the DEA, staff concludes that approval of the proposed action, alternative actions, or the no-action alternative would not constitute a major Federal action significantly affecting the quality of the human environment.

SUPPLEMENTARY INFORMATION:

Title: Criteria for Classification of Solid Waste Disposal Facilities and Practices, 40 CFR Part 258.

OMB No.: 2050-0122.

Current expiration date: January 31, 2000.

Affected entities: Owners or operators of new MSWLFs, existing MSWLFs, and lateral expansions of existing MSWLFs. These owners or operators could include Federal, State, and local governments, and private waste management companies. Facilities in SIC codes 922, 495, 282, 281, and 287 may be affected by this rule.

Abstract: Under statutory authority found in RCRA, EPA established mandatory regulations (See 40 CFR Part 258) that established the Criteria for Municipal Solid Waste Landfills (MSWLFs) for landfills that co-dispose of household waste with sewage sludge and that receive ash from municipal waste combustion (MWC) facilities (including ash monofills). EPA believes these requirements mitigate potential hazards to human health and the environment from the potential mismanagement by owners or operators of MSWLFs. This information will be used by the State Director to confirm owner or operator compliance with the regulations under Part 258. The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and the clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond including through the use of appropriate automated electronic, mechanical, or other technological collection techniques of other forms of information technology, e.g.,

permitting electronic submission of responses.

Burden Statement: The burden to respondents for complying with the Part 258 information collection requirements is approximately 222,680 hours per year, with an annual cost of \$8,034,720. The estimated number of respondents is 2300 with an average annual burden of approximately 97 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, precessing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 2, 1999.

Elizabeth Cotsworth,

Acting Director, Office of Solid Waste.
