DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement
30 CFR Part 914

[SPATS No. IN–145–FOR; State Program Amendment No. 98–1]

Indiana Regulatory Program
AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.
ACTION: Final rule; approval of amendment.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is approving an amendment to the Indiana regulatory program (Indiana program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Indiana proposed reference changes in its surface and underground mining rules concerning application requirements for geology descriptions and public participation. Indiana also proposed to add a new provision to its rule pertaining to surface mining application requirements for postmining land use information. Indiana intends to revise its program to be consistent with the corresponding Federal regulations.

EFFECTIVE DATE: June 14, 1999.

SUPPLEMENTARY INFORMATION:
I. Background on the Indiana Program
II. Submission of the Proposed Amendment
III. Director's Findings
IV. Summary and Disposition of Comments
V. Director's Decision
VI. Procedural Determinations

I. Background on the Indiana Program
On July 29, 1982, the Secretary of the Interior conditionally approved the Indiana program. You can find background information on the Indiana program, including the Secretary's findings, the disposition of comments, and the conditions of approval in the Federal Register on July 26, 1982.

II. Submission of the Proposed Amendment
By letter dated March 8, 1999 (Administrative Record No. IND–1633), Indiana sent us an amendment to its program under SMCRA. Indiana sent the amendment at its own initiative. Indiana proposed to amend the Indiana Administrative Code (IAC) at 310 IAC 12–3 regarding permit application requirements for geology descriptions, postmining land uses, and public participation.

We announced receipt of the amendment in the March 25, 1999, Federal Register (64 FR 14412). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of the amendment. The public comment period closed on April 26, 1999. Because no one requested a public hearing or meeting, we did not hold one.

III. Director's Findings
Following, under SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17, are our findings concerning the amendment.

1. 310 IAC 12–3–31 Surface Mining Permit Applications; Geology Description and 310 IAC 12–3–69 Underground Mining Permit Applications; Geology Description
   a. At 310 IAC 12–3–31(a)(3), Indiana replaced a reference to “IC 13–4.1” with a reference to “IC 14–34.” This change was necessary because Indiana recodified the Indiana Surface Coal Mining and Reclamation Act, effective July 1, 1995. Indiana replaced Indiana Code (IC) 13–4.1 and recodified its substantive provisions in IC 14–8 and 14–34. We find that this change will not make Indiana's regulation less effective than the counterpart Federal regulation at 30 CFR 780.22(a)(3).

b. At 310 IAC 12–3–31(c), 12–3–69(a)(3), and 12–3–69(c)(3), Indiana replaced references to “this rule” with references to “this article.” Since Article 12 contains all of the State's rules for coal mining and reclamation operations, the references to “this article” in Indiana's rules are consistent with the references to “this chapter” in the counterpart Federal regulations at 30 CFR 780.22(c), 784.22(a)(3), and 784.22(c)(3). Therefore, Indiana's amended regulations at 310 IAC 12–3–31(c), 12–3–69(a)(3), and 12–3–69(c)(3) are no less effective than the counterpart Federal regulations.

c. At 310 IAC 12–3–69(d), Indiana replaced a reference to “subsection (b)” with a reference to “subsections (b)(2) and (b)(3).” As revised, the director may waive in writing only the permit application geologic information requirements for subsections (b)(2) and (b)(3) if that information is unnecessary because other reliable information is available. This is consistent with the requirements of the counterpart Federal regulation at 30 CFR 784.22(d). We find that Indiana's amended regulation at 310 IAC 12–3–69(d) is no less effective than the counterpart Federal regulation.

2. 310 IAC 12–3–48 Surface Mining Permit Applications; Reclamation and Operations Plan; Postmining Land Uses

Indiana proposes to revise this rule by adding a new provision at subsection (a)(3) that requires the detailed description of the proposed land use in the reclamation plan to include an explanation of the consideration given to making all of the proposed surface mining activities consistent with surface owner plans and approved local land use plans and programs. Indiana's new provision at 310 IAC 12–3–48(a)(3) is substantively the same as the counterpart Federal regulation provision at 30 CFR 780.23(b)(3), and we are approving it.

3. 310 IAC 12–3–106 Permit Applications; Public Participation

At 310 IAC 12–3–106(a)(8), Indiana proposes to correct a reference to its experimental practice regulatory provisions by replacing the reference to “section 94” with a reference to “section 94.1.” Indiana replaced section 94 and added section 94.1 effective October 1, 1993. We find that this correction will make Indiana's regulation no less effective than the counterpart Federal regulation at 30 CFR 773.13(a)(vi).
In the April 20, 1992, Federal Register (57 FR 14350), we approved IC 14–34–1 et seq. (currently IC 14–34–8–8) with two additional requirements. At 30 CFR 732.17(h)(11), we required Indiana to complete an actuarial study of the surface coal mine reclamation bond pool as set forth in the OSM and Indiana Department of Natural Resources Cooperative Agreement GR 193184 and to initiate action to implement any forthcoming recommendations on participant fees and other matters affecting the long-term solvency of the pool. At 30 CFR 914.16(h)(2), we required Indiana to recalculate the performance bonds for all existing bond pool members and, if indicated, require the submission of additional Phase I performance bond. In response to these requirements, Indiana submitted an Actuarial Study Final Report dated June 1992 (Administrative Record No. IND–1124) and completed the bond recalculations. In 1994, we conducted a review of the Indiana bond pool, including bond pool operation, solvency, bond adjustments, and bond replacements. On page 11 of the October 14, 1994, annual report for Indiana (Administrative Record No. IND–1640), we reported that Indiana operated the bond pool consistent with the assumptions used in the actuarial study and that the bond pool was solvent. We also found that Indiana conducted bond evaluation and made bond adjustments as needed. Therefore, we are taking this opportunity to remove the requirements codified at 30 CFR 914.16(h)(1) and (h)(2).

IV. Summary and Disposition of Comments

Public Comments

We requested public comments on the proposed amendment, but did not receive any.

Federal Agency Comments

Under 30 CFR 732.17(h)(11)(i), we requested comments on the amendment from various Federal agencies with an actual or potential interest in the Indiana program (Administrative Record No. IND–1638).

By letter dated April 15, 1999 (Administrative Record No. IND–1642), the Fish and Wildlife Service (FWS) commented about Indiana's proposed new provision at 310 IAC 12–3–48(a)(3). This new provision concerns the detailed description of the proposed land use in the reclamation plan. It requires the applicant to include an explanation of the consideration given to making all of the proposed surface mining activities consistent with surface owner plans and applicable state and local land use plans and programs. The FWS commented that it seems inappropriate for the State to pass a regulation requiring changes in its coal regulatory program before OSM has reviewed and approved the changes.

The Indiana Surface Coal Mining and Reclamation Act at Indiana Code (IC) 14–34–2–4(b) allows Indiana to submit a formal amendment to OSM only after the provisions of the amendment have been approved by the governor or have become law. We approved IC 14–34–2–4(b) on April 10, 1996 (61 FR 15891), after finding that neither SMCRCA nor the Federal regulations contain specific requirements regarding the administrative or legislative procedures in the State for rulemaking. However, the Federal regulation at 30 CFR 732.17(g) requires States to submit to OSM as an amendment any proposed changes to laws or regulations of an approved State program. It also specifies that these laws or regulations must not take effect for purposes of a State program until approved by OSM.

In the March 1, 1999, Indiana Register (22 IR 1941), Indiana published a final rule notice of the proposed changes to the Indiana program being considered by OSM in this final rule. The Indiana final rule notice specified that the amendments to 310 IAC 12–3 will not become effective for purposes of a State program until approved by OSM. In the March 1, 1999, Indiana Register (22 IR 1941), Indiana published a final rule notice of the proposed changes to the Indiana program being considered by OSM in this final rule. The Indiana final rule notice specified that the amendments to 310 IAC 12–3 will not become effective until the Indiana Department of Natural Resources reviews and approves the changes.

V. Director's Decision

Based on the above findings, we approve the amendment as sent to us by Indiana on March 8, 1999.

To implement this decision, we are amending the Federal regulations at 30 CFR Part 914, which codifies decisions concerning the Indiana program. We are making this final rule effective immediately to expedite the State program amendment process and to encourage Indiana to bring its program into conformity with the Federal standards. SMCRCA requires consistency of State and Federal standards.

VI. Procedural Determinations

Executive Order 12866

The Office of Management and Budget (OMB) exempts this rule from review under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12988

The Department of the Interior conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and determined that, to the extent allowed by law, this rule meets the applicable standards of
The Veterans Benefits Assistance Act of accordance with a statutory formula. must be adjusted each fiscal year in the Montgomery GI Bill—Active Duty to veterans and servicemembers under of basic educational assistance payable ACTION: Educational Assistance Rates Veterans Education: Increase in RIN 2900–AJ37 AFFAIRS DEPARTMENT OF VETERANS BILLING CODE 4310–05–P [FR Doc. 99–15028 Filed 6–11–99; 8:45 am] removing and reserving paragraph (h). § 914.16 [Amended] 3. Section 914.16 is amended by removing and reserving paragraph (h). [FR Doc. 99–15028 Filed 6–11–99; 8:45 am] BILLING CODE 4310–05–P DEPARTMENT OF VETERANS AFFAIRS 38 CFR Part 21 RIN 2900–AJ37 Veterans Education: Increase in Educational Assistance Rates AGENCY: Department of Veterans Affairs. ACTION: Final rule. SUMMARY: By statute the monthly rates of basic educational assistance payable to veterans and servicemembers under the Montgomery GI Bill—Active Duty must be adjusted each fiscal year in accordance with a statutory formula. The Veterans Benefits Assistance Act of 1998 provides an increase of approximately 20% that supersedes the otherwise applicable statutory increase for Fiscal Year 1999 (October 1, 1998, through September 30, 1999). The regulations governing rates of basic educational assistance payable under the Montgomery GI Bill—Active Duty are changed to show the rates indicated in the Act for Fiscal Year 1999. Regular annual adjustments to these rates will resume commencing with Fiscal Year 2000. DATES: Effective Date: This final rule is effective October 1, 1998. FOR FURTHER INFORMATION CONTACT: William G. Susling, Jr., Education Adviser, Education Service, Veterans Benefits Administration (202) 273–7187. SUPPLEMENTARY INFORMATION: As provided by the Veterans Benefits Act of 1998 (Pub. L. 105–178, Subtitle B), the rates of basic educational assistance under the Montgomery GI Bill—Active Duty payable to students pursuing a program of education full time must be increased by approximately 20%. It should be noted that some veterans will receive an increase in monthly payments that will be less than 20%. The increase does not apply to additional amounts payable by the Secretary of Defense to individuals with skills or a specialty in which there is a critical shortage of personnel (so-called “kickers”). It does not apply to amounts payable for dependents. Veterans who previously had eligibility under the Vietnam Era GI Bill receive monthly payments that are in part based upon basic educational assistance and in part based upon the rates payable under the Vietnam Era GI Bill. Only that portion attributable to basic educational assistance is increased by 20%. Public Law 105–178, Subtitle B increases the full-time rates for institutional training. These increased rates result in proportionate increases in the benefits payable for other types of training whose rates are based on the
