Perfection Pad Co., Inc. a/k/a Consolidated Contractors a/k/a New York Pad; Buffalo, New York; Revised Determination on Reopening

On June 1, 1999, the Department, on its own motion, reopened its investigation for the former workers of the subject firm. The workers were engaged in employment related to the production of shoulder pads and sleeveheads used by clothing manufacturers.

The initial investigation resulted in a negative determination issued on May 7, 1999, because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met for workers at the subject firm. The denial notice will soon be published in the **Federal Register**.

Further analysis of the customer survey conducted by the Department revealed that a customer of the subject firm increased import purchases of shoulders pads while discontinuing purchases from the subject firm.

Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with those produced by the subject firm contributed importantly to the decline in sales and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

"All workers of Perfection Pad Co., Inc., also known as Consolidated Contractors, also known as New York Pad, Buffalo, New York, who became totally or partially separated from employment on or after January 7, 1998 through two years from the date of this issuance, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, D.C. this 3rd day of June 1999.
