

listed in this document would be published subsequently in this Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and therefore is issuing it as a direct final rule. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Although this action is in the form of a final rule and was not preceded by a notice of proposed rulemaking, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of this action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this action will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following

statement is made: "Comments to Docket No. 99-AWP-6." The postcard will be date stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air)

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective

September 16, 1998, is amended as follows:

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 feet or More Above the Surface of the Earth

* * * * *

AWP CA E5 Santa Catalina, CA [Revised]

Santa Catalina VORTAC
(Lat. 33°22'30" N, long. 118°25'12" W)

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Santa Catalina VORTAC and within 4.3 miles each side of the Santa Catalina VORTAC 229° radial extending from the 6-mile radius to 10.4 miles southwest of the Santa Catalina VORTAC. That airspace extending upward from 1,200 feet above the surface bounded on the east by long. 117°30'03" W, on the south by a line extending from lat. 33°15'00" N, long. 117°30'03" W; to lat. 33°12'30" N, long. 117°58'48" W; to lat. 33°18'00" N, long. 118°34'03" W; to lat. 33°19'30" N, 118°37'03" W, on the west by a line extending to lat. 33°28'30" N, long. 118°47'00" W, and on the north by a line extending to lat. 33°28'30" N, long. 118°34'03" W; to lat. 33°30'00" N, long. 118°34'03" W, thence east along lat. 33°30'00" N, to long. 117°30'03" W, excluding the portion within Control Area 1177L.

Issued in Los Angeles, California, on June 8, 1999.

R.E. Cusic,

Acting Manager, Air Traffic Division Western-Pacific Region.

14 CFR Part 71

[Airspace Docket No. 99–ACE–20]

Amendment to Class E Airspace; Macon, MO

AGENCY: Federal Aviation Administration, DOT.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: This document confirms the effective date of a direct final rule which revises Class E airspace at Macon, MO.

DATES: The direct final rule published at 64 FR 19267 is effective on 0901 UTC, July 15, 1999.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE–520C, Federal Aviation Administration, 601 East 12th Street, Kansas City, Missouri 64106; telephone: (816) 426–3408.

SUPPLEMENTARY INFORMATION: The FAA published this direct final rule with a

request for comments in the **Federal Register** on April 20, 1999 (64 FR 19267). The FAA uses the direct final rulemaking procedure for a non-controversial rule where the FAA believes that there will be no adverse public comment. This direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit such an adverse comment, were received within the comment period, the regulation would become effective on July 15, 1999. No adverse comments were received, and thus this notice confirms that this direct final rule will become effective on that date.

Issued in Kansas City, MO on May 25, 1999.

Donovan D. Schardt,

Acting Manager, Air Traffic Division, Central Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 99-ACE-24]

Amendment to Class E Airspace; Emporia, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends the Class E airspace areas at Emporia Municipal Airport, Emporia, KS. The FAA has developed Global Positioning System (GPS) Runway (RWY) 1, GPS RWY 19, VHF Omnidirectional Range/Distance Measuring Equipment (VOR/DME) Area Navigation (RNAV) RWY 19, and amended the VOR or GPS-A Standard Instrument Approach Procedures (SIAPs) to serve Emporia Municipal Airport, KS. The Development of these SIAPs has resulted in a slight reduction in the Class E surface area. Additional controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to accommodate these SIAPs, however the extensions to the north and southeast have been eliminated. The enlarged Class E area will contain the new GPS RWY 1, GPS RWY 19, VOR/DME RNAV RWY 19, and VOR or GPS-A SIAPs in controlled airspace.

In addition, a minor revision to the Airport Reference Point (ARP) geographic coordinates for the Emporia

Municipal Airport is included in this document. The intended effect of this rule is to provide controlled Class E airspace for aircraft executing the GPS RWY 1, GPS RWY 19, VOR/DME RNAV RWY 19, and VOR or GPS-A SIAPs, revise the ARP coordinates for the Emporia Municipal Airport, and to segregate aircraft using instrument approach procedures in instrument conditions from aircraft operating in visual conditions.

DATES: This direct final rule is effective on 0901 UTC, September 9, 1999.

Comments for inclusion in the Rules Docket must be received on or before July 26, 1999.

ADDRESSES: Send comments regarding the rule in triplicate to: Manager, Airspace Branch, Air Traffic Division, ACE-520, Federal Aviation Administration, Docket Number 99-ACE-24, 601 East 12th Street, Kansas City, MO 64106.

The official docket may be examined in the Office of the Regional Counsel for the Central Region at the same address between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours in the Air Traffic Division at the same address listed above.

FOR FURTHER INFORMATION CONTACT:

Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, Federal Aviation Administration, 601 East 12th Street, Kansas City, MO 64106; telephone: (816) 426-3408.

SUPPLEMENTARY INFORMATION: The FAA has developed GPS RWY 1, GPS RWY 19, VOR/DME RNAV RWY 19, and VOR or GPS-A SIAPs to serve the Emporia Municipal Airport, Emporia, KS. In addition, the Class E airspace includes a minor revision to the geographic coordinates for the Emporia Municipal Airport ARP. The Class E surface area is slightly reduced. The amendment to Class E airspace at Emporia, KS, will provide additional controlled airspace at and above 700 feet AGL in order to contain the new SIAPs within controlled airspace, eliminate the extensions to the north and southeast, and thereby facilitate separation of aircraft operating under Instrument Flight Rules. The areas will be depicted on appropriate aeronautical charts. Class E airspace areas designated as a surface area for an airport are published in paragraph 6002 and Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9F, dated September 10, 1998, and effective September 16, 1998,

which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. The amendment will enhance safety for all flight operations by designating an area where VFR pilots may anticipate the presence of IFR aircraft at lower altitudes, especially during inclement weather conditions. A greater degree of safety is achieved by depicting the area on aeronautical charts. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Although this action is in the form of a final rule and was not preceded by a notice of proposed rulemaking, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of this action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy-related
