[Project No. 2170-010 Alaska]

Chugach Electric Association, Inc.; Notice of Availability of Draft Environmental Assessment

June 17, 1999.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, the Office of Hydropower Licensing has reviewed the application for the proposed Amendment of License for the Cooper Lake Project, located on Cooper Lake, Cooper Creek, and Kenai Lake near Cooper Landing on the Kenai Peninsula, Alaska, and has prepared a draft environmental assessment (DEA) for the proposed action. The Cooper Lake Project occupies lands within the Chugach National Forest.

Chugach Electric Association proposes to increase the generating capacity of the project by 4.38 MW. The increase would be achieved by installing new, modern design turbine runners in the existing casings, which would increase the hydraulic capacity of each of the two generating units from 165.5 cubic feet per second (cfs) to 190 cfs, a total project increase from 331 cfs to 380 cfs. This 14.8 percent increase is defined as a non-capacity related amendment under the Commission's regulations (18 CFR 4.201(b)).

The DEA finds that approval of the amendment would not constitute a major federal action significantly affecting the quality of the human environment. Copies of the DEA are available for review in the

Commission's Public Reference Branch, Room 2A, 888 First Street, NE, Washington, DC 20426 or by calling (202) 208-1371. The DEA may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm>. Please call (202) 208-2222 for assistance.

Any comments on the DEA should be filed within 30 days from the date of this notice and should be addressed to: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426. Please affix "Cooper Lake Project Amendment of License, Project No. 2170-010" to all comments.
