

as allowed by section 411(f) of SMCRA. That certification says the project is in a community impacted by coal mining activities. The State Fire Marshal has condemned the existing structure and will not permit its use. Only the gymnasium and auditorium can be used. The remainder cannot be used. The school was heavily damaged by earthquakes. An inspection by AML engineers confirms the danger. Currently, students are housed in portions of the old high school (gymnasium and auditorium), modular buildings and other community buildings. This poses a safety hazard to the students because no central emergency system exists in case of fire or other hazard. The Governor's Certification states that the safety hazards associated with the old high school warrant funding of this project before the remaining inventory of non-coal projects.

IV. How We Will Review Wyoming's Grant Application

We will review this grant application with respect to the regulations at 30 CFR 875.15, specifically §§ 875.15(e)(1) through (7). As stated in those regulations, the application must include the following information: (1) The need or urgency for the activity or the construction of the public facility; (2) the expected impact the project will have on Wyoming's coal or minerals industry; (3) the availability of funding from other sources and, if other funding is provided, its percentage of the total costs involved; (4) documentation from other local, State, and Federal agencies with oversight for such utilities or facilities describing what funding they have available and why their agency is not fully funding this specific project; (5) the impact on the State, the public, and the minerals industry if the facility is not funded; (6) the reason why this project should be selected before a priority project relating to the protection of the public health and safety or the environment from the damages caused by past mining activities, and (7) an analysis and review of the procedures Wyoming used to notify and involve the public in this funding request, and a copy of all comments received and their resolution by the State. Wyoming's application for the Cokeville High School project contains the information described in these seven subsections.

Section 875.15(f) requires us to evaluate all comments we receive and determine whether the funding meets the requirements of § 875.15(e)(1) through (7) described above. It also requires us to determine if the request

is in the best interests of the State's AML program. We will approve Wyoming's request to fund this project if we conclude that it meets all the requirements of 30 CFR 875.15.

V. What to Do if You Want to Comment on the Proposed Project

We are asking for public comments on Wyoming's request for funds to pay for part of the cost of building a new high school in Cokeville, Wyoming. You are welcome to comment on the project. If you do, please send us written comments. Make sure your comments are specific and pertain to Wyoming's funding request in the context of the regulations at 30 CFR 875.15 and the provisions of section 411 of SMCRA. You should explain any recommendations you make. If we receive your comments after the time shown under DATES or at locations other than the Casper Field Office, we will not necessarily consider them in our final decision or include them in the administrative record.

Dated: June 11, 1999.

Guy Padgett,

Director, Casper Field Office.

BILLING CODE 4310-05-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-807 (Final)]

Certain Hot-Rolled Steel Products From Japan

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission determines, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)) (the Act), that an industry in the United States is materially injured² by reason of imports from Japan of certain hot-rolled steel products, provided for in headings 7208, 7210, 7211, 7212, 7225, and 7226 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce to be sold in the United States at less than fair value (LTFV). The Commission finds that critical circumstances do not exist

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² Commissioner Askey determines that an industry in the U.S. is threatened with material injury.

with respect to subject imports from Japan.³

Background

The Commission instituted this investigation effective September 30, 1998, following receipt of a petition filed with the Commission and the Department of Commerce by Bethlehem Steel Corp., Bethlehem, PA; U.S. Steel Group, a unit of USX Corp., Pittsburgh, PA; Ispat Inland Steel, East Chicago, IN; LTV Steel Co., Inc., Cleveland, OH; California Steel Industries, Fontana, CA; Gallatin Steel Co., Ghent, KY; Geneva Steel, Vineyard, UT; Gulf States Steel, Inc., Gadsden, AL; IPSCO Steel, Inc., Muscatine, IA; Steel Dynamics, Butler, IN; Weirton Steel Corp., Weirton, WV; Independent Steelworkers Union, Weirton, WV; and the United Steelworkers of America, Pittsburgh, PA. The final phase of the investigation was scheduled by the Commission following notification of a preliminary determination by the Department of Commerce that imports of certain hot-rolled steel products from Japan were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of March 5, 1999 (64 FR 10723). The hearing was held in Washington, DC, on May 4, 1999, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on June 18, 1999. The views of the Commission are contained in USITC Publication 3202 (June 1999), entitled Certain Hot-Rolled Steel Products from Japan: Investigation No. 731-TA-807 (Final).

Issued: June 18, 1999.

By order of the Commission.

Donna R. Koehnke,
Secretary.

BILLING CODE 7020-02-P

³ Commerce found that critical circumstances do not exist with respect to two Japanese producers: Nippon Steel Corp. and NKK Corp. Chairman Bragg finds that critical circumstances exist with respect to subject imports from Japan. Commissioner Askey did not assess critical circumstances because she did not determine that the industry in the U.S. is materially injured.
