DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Office of Minority Health

Availability of Funds for Grants for Technical Assistance and Capacity Development Demonstration Program for HIV/AIDS-Related Services in Highly Impacted Minority Communities

AGENCY: Office of the Secretary, Office of Minority Health, HHS.

ACTION: Notice of Availability of Funds and Requests for Applications for Technical Assistance and Capacity Development Demonstration Grant Program for HIV/AIDS-Related Services in Highly Impacted Minority Communities.

Purpose: The purpose of the Technical Assistance and Capacity Development Demonstration Grant Program for HIV/AIDS-Related Services in Highly Impacted Minority Communities is to stimulate and foster the development of effective and durable service delivery capacity for HIV prevention and treatment among organizations closely interfaced with the minority populations highly impacted by HIV/AIDS. The grantee will identify minority community-based organizations (CBOs) and small, non-federally funded minority CBOs that are well linked with minority populations highly affected by HIV/AIDS, and which have recognized needs and/or gaps in their capacity to provide HIV/AIDS-related prevention and care services. The goals are to:

- Provide administrative and programmatic technical assistance to enable those organizations to enhance their delivery of necessary services; and
- Assist those CBOs, through an ongoing mentoring relationship, in the development of their capacity as fiscally viable and programmatically effective organizations thereby allowing them to successfully compete for federal and other resources.

This program is intended to demonstrate the impact of technical assistance and capacity development on improving HIV prevention and care among organizations within a circumscribed area in which many minority individuals are in need of HIV/AIDS prevention and/or treatment services. To the extent that selected services such as substance abuse treatment and public health are available within the circumscribed area, linkages with these services will be fostered as part of the technical assistance. The program intends to

address HIV/AIDS issues within the context of related socio-economic factors and contribute to overall community empowerment by strengthening indigenous leadership and organizations.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and to improve the quality of life. This announcement relates to 4 of the 22 priority areas established by Healthy People 2000: (1) Alcohol and other drugs; (2) educational and community-based programs; (3) HIV infection; and (4) sexually transmitted diseases. Potential applicants may obtain a copy of the Healthy People 2000 (Full Report: Stock No. 017-001-00474-0) or Healthy People 2000 Midcourse Review and 1995 Revisions (Stock No. 017-001-00526-6) through the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402-9325 or telephone (202) 783-8238.

Background: The Office of Minority Health's (OMH) mission is to improve the health of racial and ethnic minority populations through the development of health policies and programs that will help to address the health disparities and gaps. Consistent with its mission, the role of OMH is to serve as the focal point within the Department for service demonstrations, coalition and partnership building, and related efforts to address the health needs of racial and ethnic minorities. In keeping with this mission, OMH is establishing the Technical Assistance and Capacity Development Demonstration Grant Program for HIV/AIDS-Related Services in Highly Impacted Minority Communities to assist in addressing the HIV/AIDS issues facing minority communities in 15 eligible metropolitan statistical areas. This program is based on the hypothesis that providing technical assistance and capacity development to organizations closely linked with the minority populations highly impacted by the disease, will improve their capacity to better serve minority populations with HIV/AIDS prevention and treatment. It is anticipated that this approach will strengthen existing minority CBOs and inexperienced organizations in addressing this health issue by developing and expanding their technical skills and infrastructure capacity. Applicants are encouraged to establish linkages with other federally funded programs supporting HIV/AIDS prevention and care to maximize these efforts.
