

in the Commission's indexing regulations as applied to that particular segment.

Any person desiring to be heard or to protest filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before July 15, 1999. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make Protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

[Project No. 1494-171]

#### Grand River Dam Authority; Notice of Extension of Time

June 18, 1999.

On December 21, 1998, Grand River Dam Authority filed an application for approval of modified marina facilities, in the above-docketed proceeding. The proposed modifications include the relocation of a fuel dock from its approved location, about 845 feet from the northern shoreline to a new (present) location, about 130 feet from the northern shoreline. Further, the permittee proposed to replace four existing boat slips with a building containing a business office, bathhouse, and laundromat. The Pensacola Project is on the Grand River, in Craig, Delaware, Mayes, and Ottawa Counties, Oklahoma.

On June 4, 1999, the Commission issued a Notice of Availability of Draft Environmental Assessment (DEA) for the proposal (64 FR 31215, pub. June 10, 1999). The DEA was issued as a result of a review by the Office of Hydropower Licensing in accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47910). Copies of the DEA can be obtained by calling the Commission's Public Reference Room at (202) 208-1371. The DEA may also be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (please call (202) 208-2222 for assistance). In the DEA, staff concluded that approval of the proposed action, alternative actions, or the no-action alternative would not constitute a major Federal action significantly affecting the quality of the human environment.

Because of the interest shown by the public in this matter, the Commission is extending the time for the filing of comments on the project. By this notice, the time for the filing of comments is hereby extended to and including July 26, 1999. Comments should be addressed to Mr. David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please affix Project No. 1494-171 to all comments. For further information, please contact

the project manager, Jon Confrancesco at (202) 219-0079.

### Federal Energy Regulatory Commission

[Docket No. CP99-552-000]

#### Northern Natural Gas Company; Notice of Application

June 18, 1999.

Take notice that on June 11, 1999, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, Nebraska 68124-1000, filed in Docket No. CP55-552-000 an application pursuant to Section 7(b) of the Natural Gas Act (NGA) for permission and approval to abandon as nonjurisdictional facilities, by sale to McDay Energy Partners, Ltd. (McDay Energy), certain pipeline facilities, with appurtenances, located in Zavala and Dimmitt Counties, Texas (Zavala Facilities) and certain services rendered thereby. Northern also requests approval, concurrent with the conveyance of the Zavala Facilities, to abandon a rental compressor unit located at the Zavala County #3 Compressor Station, all as more fully set forth in the application on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Northern states that the Zavala Facilities consist of approximately 26 miles of 12-inch pipeline and appurtenant facilities, and that the facilities will be conveyed to McDay Energy for \$1,700,000. Northern also states that, concurrent with the conveyance of the Zavala Facilities, Northern is proposing to abandon the 1,100 horsepower rental compressor unit located at the Zavala County #3 Compressor Station in-place.

Northern states that it is currently providing only interruptible transportation service on the Zavala Facilities on a month-to-month basis pursuant to Part 284 of the Commission's Regulations and rate schedules in Northern's FERC Gas Tariff, Fifth Revised Volume No. 1. Northern states that all transportation services related to the Zavala Facilities will be terminated by Northern effective on the effective date of the sale of the subject facilities to the McDay Energy.
