

Rendija Canyon Tract (about 910 acres)—environmental preservation (including recreational use) and residential development or cultural preservation.

TA-21 Tract (about 260 acres)—commercial and industrial development.

Airport Tract (about 205 acres)—commercial and industrial development or commercial development.

White Rock "Y" Tract (about 540 acres)—environmental preservation or cultural preservation.

TA-74 Tract (about 2715 acres)—cultural preservation or environmental preservation.

White Rock Tract (about 100 acres)—cultural preservation and commercial development or commercial and residential development.

Each of these tracts may have existing or future infrastructure uses that include utility lines, utility support structures, water supply wells, storage tanks or structures, water or effluent treatment structures and transportation routes.

The proposed action encompasses floodplains and wetlands because Pub. L. 105-119 requires DOE to identify land that may meet the criteria established by the Law. The suitability criteria does not exclude land containing wetland and floodplain areas; therefore, potentially suitable land in wetland and floodplain areas was included in the tracts DOE identified for possible conveyance and transfer. The conveyance or transfer of each tract, in whole or in part, constitutes DOE's Proposed Action Alternative. The only alternative to the proposed action considered is the No Action Alternative. The proposed action of conveying or transferring each of the tracts, either in whole or in part, conforms to applicable State or local floodplain protection standards. Contemplated use of the tracts as articulated to DOE by the named recipients would also conform to applicable State or local floodplain protection standards. Both Los Alamos and Santa Fe Counties have protective ordinances pertaining to flood damage prevention that is inclusive of language requiring new construction to be placed outside of floodplains. The pertinent Los Alamos County Code Ordinance is: 85-70 "An Ordinance Repealing Chapter 15.16 of the Los Alamos County Code Adopting a New Chapter 17.70 Pertaining to Flood Damage prevention." The pertinent Santa Fe County Code Ordinances are: 1988-1 "An Ordinance to Establish Regulations for Development in Flood Hazard Areas, Set Minimum Floor Elevations for Compliance, Define Flood Plains, Address Required Building

Improvements, and Establish Variance Regulations for Cases Where There Isn't an Ability to Comply with Adopted Standards," and 1996-1 "Flood Hazards."

A floodplain statement of findings will be published in the *Final Environmental Impact Statement for the Conveyance and Transfer of Certain Land Tracts Administered by the Department of Energy and Located at Los Alamos National Laboratory, Los Alamos and Santa Fe Counties, New Mexico* in accordance with the National Environmental Policy Act. The anticipated issuance date for the Final Environmental Impact Statement is August 1999. Notice of its availability will be announced in the **Federal Register**.

Issued in Los Alamos, NM on June 16, 1999.
