SUPPLEMENTARY INFORMATION:

Background

On December 3, 1987, the Department of Commerce issued an antidumping duty order on imports of seamless stainless steel hollow products from Sweden (52 FR 45985). The Department of Commerce amended the order on November 5, 1992 to include welded stainless steel hollow products from Sweden (57 FR 52761). The Department

¹No response to this request for information is required if a currently valid Office of Management and Budget (OMB) number is not displayed; the OMB number is 3117-0016/USITC No. 99-5-021. Public reporting burden for the request is estimated to average 7 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street, SW, Washington, DC 20436.

subsequently revoked the order as to the seamless products on August 16, 1995, the order thus remaining in effect only as to the welded products (60 FR 42529). On December 30, 1992, the Department of Commerce issued antidumping duty orders on imports of welded ASTM A-312 stainless steel pipe from Korea (57 FR 62301) and Taiwan (57 FR 62300). The Commission is conducting reviews to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full reviews or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions

The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The *Subject Countries* in these reviews are Korea, Sweden, and Taiwan.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In the original and remand determinations concerning Sweden, the Commission found two Domestic Like Products: (1) Welded pipe and tube, excluding articles containing between 10.1 and 11.5 percent chromium (primarily grade 409 pipe and tube), and (2) seamless pipe and tube, including redraw hollows and finished seamless pipe and tube. One Commissioner defined the welded pipe and tube Domestic Like Product differently. Because the antidumping order was subsequently revoked as to seamless pipe and tube, the seamless pipe and tube Domestic Like Product, as defined above, is no longer like, or most similar in characteristics with, the merchandise from Sweden that remains subject to the order. Accordingly, for purposes of responding to this notice, persons should consider welded pipe and tube, excluding articles containing between 10.1 and 11.5 percent chromium by weight (primarily grade 409 pipe and tube), to be the sole Domestic Like Product corresponding to the subject merchandise from Sweden.

In its original determinations concerning Korea and Taiwan, the Commission found one Domestic Like Product: welded stainless steel pipes and pressure tubes, excluding grade 409 tubes and mechanical tubes (also known as ornamental tubes). For purposes of this notice, you should report information separately on each of the two foregoing welded pipe and tube Domestic Like Products.

(4) The *Domestic Industry* is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In the original and remand determinations concerning Sweden, the Commission found two Domestic Industries corresponding to the two Domestic Like Products. The first is the welded pipe and tube industry, which consists of integrated companies that melt stainless steel, produce the required basic shapes (sheet, strip, and plate), and then make the pipe and tube; and non-integrated companies that purchase the basic shapes and make the pipe and tube. The second is the seamless pipe and tube industry, which consists of integrated companies that melt the steel, produce the basic shapes, and then make the pipe and tube; and redrawers. Because the antidumping order was subsequently revoked as to seamless pipe and tube, the Domestic Industry corresponding to the Domestic Like Product is now the welded pipe and tube industry, as defined above. The Commission excluded one domestic producer, Sandvik, from the Domestic Industry under the related parties provision. In its original determinations concerning Korea and Taiwan, the Commission found one Domestic Industry: producers of welded stainless steel pipes and pressure tubes, excluding grade 409 tubes and mechanical tubes (also known as ornamental tubes). For purposes of this notice, you should report information separately on each of the two foregoing welded pipe and tube Domestic Industries.

(5) The *Order Dates* are the dates that the antidumping duty order under review became effective. In the review concerning Sweden, the Order Date is December 3, 1987. In the reviews concerning Korea and Taiwan, the Order Date is December 30, 1992.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the Reviews and Public Service List

Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the reviews as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the reviews.

Limited Disclosure of Business Proprietary Information (BPI) Under an Administrative Protective Order (APO) and APO Service List

Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in these reviews available to authorized applicants under the APO issued in the reviews, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**.

Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the reviews. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification

Pursuant to § 207.3 of the Commission's rules, any person submitting information to the Commission in connection with these reviews must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written Submissions

Pursuant to § 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is August 20, 1999. Pursuant to § 207.62(b) of the Commission's rules, eligible parties (as specified in

Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is September 13, 1999. All written submissions must conform with the provisions of §§ 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of §§ 201.6 and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means. Also, in accordance with §§ 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the reviews you do not need to serve your response).

Inability To Provide Requested Information

Pursuant to § 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determinations in the reviews.
