

POTWs, as well as to provide improve information on needs for CSO and NPS needs. There are no capital/startup costs or operation and maintenance costs for respondents. The main objectives of the 2000 data collection effort will be to develop data on pollution problems eligible for funding from the State Revolving fund program including Non Point Source(s). To minimize the reporting burden, the Surveys have been computerized since 1988 and EPA will continue to use the computerized data base approach. Frequency is determine by the Congress under the Clean Water Act. No confidential information is used, nor is sensitive information protected from release under the Public Information Act used. Burden means the total time, effort, or financial resources expended by person to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions, develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Agency Information Collection Activities; Pesticides; Submission of EPA ICR No. 0595.07

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of submission to OMB.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 et seq.), this document announces that the Information Collection Request (ICR) entitled: "Notice of Pesticide Registration by States to Meet a Special Local Need, Section 24(c)" [EPA ICR No. 0595.07; OMB No. 2070-0055], has been forwarded to the Office of Management and Budget (OMB) for review and approval pursuant to OMB procedures in 5 CFR 1320.12. The ICR, which is abstracted below, involves a collection activity that is currently approved and is scheduled to expire on September 30, 1999. The ICR describes the nature of the information collection activity and its expected burden and costs. A **Federal Register** document announcing the Agency's intent to seek OMB approval for this ICR and provide a 60 day comment period opportunity, was issued on January 20, 1999 (64 FR 3086.). EPA did not receive any comments on this ICR during the comment period.

DATES: Additional comments may be submitted on or before August 9, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone on (202) 260-2740, by e-mail: farmer.sandy@epa.gov or download a copy of the ICR on the internet at <http://www.epa.gov/icr/icr.htm> and refer to

EPA ICR No 0595.07 and OMB Control No. 2070-0055.
ADDRESSES: Send comments, referencing EPA ICR 0595.07 and OMB Control No. 2070-0055, to the following addresses:
 Ms. Sandy Farmer, U.S. Environmental Protection Agency, Regulatory Information Division (Mail Code: 2137), 401 M Street, SW, Washington, DC 20460; and to:

Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

SUPPLEMENTARY INFORMATION:

I. Does This Notice Apply to Me?

This document applies to any state exercising authority to register additional uses of federally registered

pesticides for distribution and use within the state to meet a special local need pursuant to FIFRA section 24(c). The term "state" includes a state, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands and American Samoa. Potentially affected categories include:

Category	NAICS code	SIC codes	Examples of potentially affected entities
State agencies/governments	923120	9431	State Agencies issuing state registration for additional uses of federally registered pesticides to be used within the state.
Organic Chemical Manufacturers	325320	286	Pesticide Registrants.
Inorganic Chemical Manufacturers ..	325320	287	Pesticide Registrants.
Agricultural Grower Groups	813910	100/200	Agricultural Grower Groups that provide information to support additional uses of federally registered pesticides within a state.

If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed in the **FOR FURTHER INFORMATION CONTACT** section.

II. What Information Collection Activity or ICR Does This Notice Apply To?

The final ICR package for the following information collection activity has been submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA is asking OMB to approve this ICR for three years.

Title: Notice of Pesticide Registration by States to Meet a Special Local Need, Section 24(c).

ICR Numbers: EPA ICR No.0595.07; OMB No. 2070-0055.

ICR Status: This ICR involves a collection activity that is currently approved. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's information collections appear on the collection instruments or instructions, in the **Federal Register** documents for related rulemakings and ICR notices, and, if the collection is contained in a regulation, in a table of OMB approval numbers in 40 CFR part 9.

Abstract: EPA is responsible for the regulation of pesticides as mandated by FIFRA. However, FIFRA section 24(c) also authorizes States to register additional uses of federally registered pesticides for distribution and use within their borders to meet a special local need (SNL). A state-issued registration under FIFRA section 24(c) is deemed a federal registration, for the purposes of the pesticide's use within the State's boundaries. A State must

notify EPA, in writing, of any action it takes, i.e., issues, amends, or revokes, a state-registration. To support a special need registration all applicants must submit to the State basic pesticide product information including:

(1) Name and address of the applicant and any other person whose name will appear on the labeling or in the directions for use.

(2) The name of the pesticide product, and, if the application is for an amendment to a federally registered product the EPA registration number of that product,

(3) A copy of the proposed labeling, including all claims made for the product as well as directions for its use to meet the special local need, consisting of:

(i) For a new product, a copy of the complete proposed labeling; or,
 (ii) For an additional use of a federally registered product, a copy of proposed supplemental labeling and a copy of the labeling for the federally registered product.

(iii) If a State classifies for restricted use a product or use, which is not required to be so classified under FIFRA, supplemental labeling for the product or use containing additional appropriate precautions, and a statement that the product or use is for restricted use within the State may be required.

(4) The complete formula of the product, if the application is for a new product registration.

(5) Any other information that is required to be reviewed prior to registration.

Once a state issues a SLN registration, the label of the pesticide product must contain:

(1) A statement identifying the State where registration is to be valid.

(2) The special local need registration number assigned by the State.

(3) For an additional use of a federally registered product, the State must require that at the time of sale, labeling from the federally registered product be accompanied by supplemental labeling.

To ensure that the States do not issue any registrations that might conflict with other requirements in FIFRA, or with section 408 or 409 of the Federal Food Drug, and Cosmetic Act (FFDCA) which require that a tolerance exist for any pesticide used on a food or feed commodity. FIFRA section 24 (c)(3) allows the EPA to determine whether or not a State issued registration is inconsistent with the FFDCA or if the use of a pesticide registered by the State constitutes an imminent hazard. To make such a determination the EPA requires States to submit EPA Form 8570-25:

(1) Within ten working days from the date a State issues, amends or revokes a registration, the State is required to notify the EPA, in writing, of the action. Notification of State registrations, or amendments thereto, shall include:

(i) Effective date of the registration or amendment,

(ii) Confidential statement of the formula of any new product, and

(iii) A copy of the draft labeling reviewed and approved by the State, provided that labeling previously approved by the Administrator as part of a federal registration need not be submitted.

(2) Notification of State registrations or amendments shall be supplemented by the State sending to the EPA a copy of the final printed labeling approved by the State within 60 days after the effective date of the registration or amendment.

(3) Notification of revocation of a registration by a State shall indicate the effective date of revocation, and shall state the reasons for revocation.

(4) The Agency may request, when appropriate, that a State submit any data used by the State to determine that unreasonable adverse effects will not be caused.

The Agency has 90 days to determine whether the SLN registration should be disapproved. If the SLN is disapproved, the State is responsible for notifying the affected registrant.

Burden: Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this collection of information is estimated to average 12.5 hours per response. The following is a summary of the estimates taken from the ICR:

Respondents/Affected Entities: States.

Estimated Total Number of Potential Respondents: 349.

Frequency of Response: Determined by the state.

Estimated Total Annual Burden Hours: 24,604.

Estimated Total Annual Burden Costs: \$2,360,287.

III. Are There Changes in the Estimates From the Last Approval?

Yes. The overall respondent burden hours associated with this collection has decreased from 38,775 to 24,604.5 hours per year. This change is due to the decrease of the number of applications made by the states since the renewal of the last ICR from 550 to 349. Costs have increased due to current labor rates as supplied by the Bureau of Labor Statistics. No regulatory changes have been made in the requirements for Section 24(c) applications.

IV. What Is the Next Step in the Process for This ICR?

After providing a 30 day opportunity for additional comments from the public, OMB will review and take action on the Agency's request. Periodically, EPA publishes a notice in the **Federal Register** listing recent OMB actions on the Agency's ICR submittals. If you have any questions about this ICR or the approval process, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Notice of Approval of Extension of Prevention of Significant Air Quality Deterioration (PSD) and New Source Review (NSR) Permit to Muht-Hei, Inc. (NSR 4-4-10, SD 92-02)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Notice is hereby given that on May 3, 1999 the Environmental Protection Agency issued an extension of the prevention of significant deterioration/new source review (PSD/NSR) permit to the applicant named above. Extension of the PSD/NSR permit grants approval to Muht-Hei, Inc. to construct and operate a solid waste landfill on the tribal lands of the Campo Band of Mission Indians.

FOR FURTHER INFORMATION CONTACT:

Copies of the permit are available for public inspection upon request; please address the request to: Steve Branoff (AIR-3), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105, (415) 744-1290.

SUPPLEMENTARY INFORMATION: On October 18, 1996, EPA issued a PSD/NSR permit to Mid-American Waste Systems, Inc. for the construction and operation of a solid waste landfill on the tribal lands of the Campo Band of Mission Indians. The 1996 permit specified that this permit would expire if construction did not commence within 18 months after its issuance. Prior to the date of permit expiration, Muht-Hei, Inc. applied to EPA for a transfer of ownership of the proposed project, and for an extension of the PSD/

NSR permit. EPA has extended the approval to construct and operate the proposed landfill to the new owners for a period of 18 months from May 3, 1999 until November 2, 2000.

The PSD/NSR permit requires the application of Lowest Achievable Emission Rate (LAER) for emissions of volatile organic compounds (VOCs), and Best Available Control Technology (BACT) for fine particulate matter (PM₁₀). The permit also requires Muht-Hei to provide emission offsets for all direct and fugitive emissions of VOCs. LAER requirements for this permit include construction of the landfill with low permeability composite liners, installation and maintenance of a landfill gas (LFG) collection system, and destruction of all collected LFG in a flaring system that will achieve a minimum VOC destruction removal efficiency (DRE) of 99.6% by weight.

BACT requirements for particulate emissions include paving, vacuum-sweeping, and watering of roads. In addition, the LFG flare is subject to certain emission limits, including allowable emission rates as follows: 0.06 lbs/mmBtu of NO_x, 0.15 lbs/mmBtu of CO, and 0.005 lbs/mmBtu of PM₁₀.

DATES: The issuance of a PSD/NSR permit is reviewable under section 307(b)(1) of the Clean Air Act and 40 CFR 124.19(f)(1) in the Ninth Circuit Court of Appeals. A petition for review must be filed by September 7, 1999. EPA did not receive an appeal to the Administrator or the Environmental Appeals Board for review of this permit decision within thirty (30) days from the date the final permit was issued.

Dated: June 28, 1999.

Kenneth Bigos,

Acting Director, Air Division, Region 9.
