Workshop on Development of New Therapies for Rare Blood Diseases

Notice is hereby given of a workshop on the "Development of New Therapies for Rare Blood Diseases" sponsored by the National Heart, Lung, and Blood Institute and the Office of Rare Diseases, N.I.H., to be held from 9 a.m. to 4 p.m. on Wednesday, July 14, 1999, in the Lister Hill Auditorium on the N.I.H. campus in Bethesda, MD.

Historically, it has been difficult to develop new therapies for rare diseases, in part because of limited financial incentives and few patients available to do rigorous clinical trials. This problem has been particularly frustrating in the area of blood diseases, where the pathophysiologic defects may be well understood. For example, the first human molecular defect was
