**SUPPLEMENTARY INFORMATION:**

**Background**

Standards developed by NFPA technical committees have been used by various Federal agencies as the basis for Federal regulations concerning fire safety. The NFPA codes and standards are known collectively as the "National Fire Codes." Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

Revisions of existing standards and adoption of new standards are reported by NFPA technical committees at the NFPA November meeting or at the May meeting each year. The NFPA invites public comment on its technical committee reports contained in the

"2000 May Meeting Report on Proposals."

**Request for Comments**

Interested persons may participate in these revisions by submitting written data, views, or arguments to Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-9101.

Commenters may use the forms provided for comments in the "2000 May Meeting Report on Proposals." Each person submitting a comment should include his or her name and address, identify the notice, and give reasons for any recommendations. Comments received on or before October 8, 1999 will be considered by the NFPA before final action is taken on the proposals.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the "2000 May Meeting Report on Comments" by March 31, 2000, prior to the May Meeting. A copy of this report will be sent automatically to each commenter. Action on the reports of the NFPA technical committees (adoption or rejection) will be taken at the May Meeting, May 14-18, 2000 in Denver, Colorado, by NFPA members.
