

**SUMMARY:** Notice is hereby given that the Hawaii Department of Health, acting under authority of a PSD delegation agreement, issued PSD permits to the following applicants:

Kawaihae Cogeneration Partnership granting approval to construct two 21 megawatt combustion turbine generators with waste heat recovery steam generators and one 16 megawatt steam turbine generator to be located at Kawaihae on the island of Hawaii. The permit became effective on April 28, 1997 and includes the following emission limits: NO<sub>x</sub> at 15 ppm (maximum 13.8 lbs/hr), SO<sub>2</sub> at 78.8 ppm (maximum 97.2 lbs/hr), PM10 at 0.042 gr/dscf (maximum 10.0 lbs/hr), CO at 302.5 ppm (maximum 144.8 lbs/hr), and VOC at 18.6 ppm (maximum 6.1 lbs/hr).

The Maui Electric Company granting approval to construct two 20 megawatt simple cycle combustion turbine generators, M17 and M19, at the Maalaea Generating Station located on the island of Maui. The permit became effective on September 10, 1998 and includes the following emission limits: NO<sub>x</sub> at 42 ppm (maximum 42.3 lbs/hr), SO<sub>2</sub> at 79 ppm (maximum 110 lbs/hr), PM10 at 0.045 gr/dscf (maximum 19.7 lbs/hr), CO at 44 ppm (maximum 26.8 lbs/hr), and VOC at 10 ppm (maximum 3.8 lbs/hr).

Encogen Hawaii, L.P. granting approval to construct two 23 megawatt combustion turbine generators with heat recovery steam generators and one 19 megawatt steam turbine generator to be located at Hiana, on the island of Hawaii. The permit became effective on March 26, 1999 and includes the following emission limits: NO<sub>x</sub> at 15 ppm (maximum 11.7 lbs/hr), SO<sub>2</sub> at 11.5 ppm (maximum 15 lbs/hr), PM10 at 0.02 gr/dscf (maximum 4.7 lbs/hr), CO at 57.5 ppm (maximum 28 lbs/hr), and VOC at 6.5 ppm (maximum 2 lbs/hr).

**DATES:** The PSD permits are reviewable under section 307(b)(1) of the Clean Air Act only in the Ninth Circuit Court of Appeals. A petition for review must be filed by September 13, 1999.

**FOR FURTHER INFORMATION CONTACT:** Copies of the permit are available for public inspection upon request; address request to: Robert Baker (AIR-3), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105, (415) 744-1258.

**SUPPLEMENTARY INFORMATION:** Best Available Control Technology (BACT) requirements include water/steam injection for all three facilities and SCR on the Kawaihae and Encogen facilities for the control of NO<sub>x</sub> emissions, low sulfur fuels for the control of SO<sub>2</sub> and PM10 emissions, and good combustion

design and operation for the control of PM10, CO, and VOC emissions. Air quality impact modelling was required for NO<sub>x</sub>, SO<sub>2</sub>, CO and PM10. Continuous emission monitoring is required for NO<sub>x</sub>, CO and opacity and all three sources are subject to New Source Performance Standards, subparts A and GG.

Dated: June 27, 1999.

**Kenneth Bigos,**

*Acting Director, Air Division, Region 9.*

## FEDERAL COMMUNICATIONS COMMISSION

[WT Docket No. 98-20; WT Docket No. 95-69; FCC 99-140]

### Facilitate the Development and Use of the Universal Licensing System in the Wireless Telecommunications Services

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** This document provides for public access via the Internet to application and licensing information in our Universal Licensing System (ULS) for wireless services. It also provides for similar access via the Internet to application data in our auctions database. The intended effect is to make application and licensing information more widely available to the public while greatly reducing the total costs of obtaining such information.

**FOR FURTHER INFORMATION CONTACT:** David Furth, Wireless Telecommunications Bureau, at (202) 418-0600.

**SUPPLEMENTARY INFORMATION:** This *Second Report and Order* in WT Docket No. 98-20, WT Docket No. 95-69, adopted June 10, 1999, and released June 15, 1999, is available for inspection and copying during normal business hours in the FCC Reference Center, 445 Twelfth Street, SW, Washington DC. The complete text may be purchased from the Commission's copy contractor, International Transcription Service, Inc., 1231 20th Street, NW, Washington, DC 20036 (202) 857-3800. The document is also available via the internet at <http://www.fcc.gov/Bureaus/Wireless/Orders/1999/index.html>.

### Synopsis of Second Report and Order

#### I. Introduction

In this Second Report and Order, the Commission provides for public access

via the Internet to application and licensing information in the Wireless Telecommunications Bureau's Universal Licensing System (ULS). This Second Report and Order also provides for similar access via the Internet to application data in our auctions database.

#### II. Discussion

##### A. Internet Access to ULS Application and Licensing Information

In this *Second Report and Order*, we adopt changes to our rules and procedures that will allow for public access through the Internet to application and licensing information in our Universal Licensing System (ULS) for wireless services. We provide for similar access via the Internet to application data in our auctions database. Specifically, we have taken a number of steps in this order to allow the public to have access to much of our licensing information at the lowest possible cost.

We authorize public access through the Internet to ULS, as soon as technically feasible, for purposes of viewing application and licensing information. This will significantly enhance the ability of the public to access public record information regarding wireless licensees at reduced cost. To ensure the security and reliability of the database, however, parties filing applications or notifications in ULS will continue to dial directly into the Commission's Wide Area Network (FCC WAN) by means of an 800 or 900 number.

Additionally, we authorize access on the Internet to short form applications (Form 175) that have been filed in our auctions database. This will be permitted as soon as it is technically feasible. This will enable interested parties and the public to review application data pertaining to bidders in ongoing auctions, as well as application data from previously completed auctions. Auction participants will continue to use the 900 number to access the FCC WAN for purposes of bidding electronically and reviewing updated auction round results.

Federal Communications Commission.

**Magalie Roman Salas,**

*Secretary.*
