Synopsis

This document corrects 47 CFR 90.665(c) of the Final Rules, set forth in the amendatory text to the Second Order on Reconsideration and Seventh Report and Order in the above-captioned proceeding, 60 FR 48913 (September 19, 1995), 47 CFR 90.665. This correction clarifies that there are two distinct options to satisfy construction requirements for Metropolitan Trading Area (MTA) licensees in the 900 MHz Specialized Mobile Radio Service. Under the first option, the MTA licensee must demonstrate coverage of one-third of the MTA's population three years from the date of license grant, and demonstrate two-thirds coverage of the MTA's population five years after license grant. The second option requires an MTA licensee to demonstrate five years after license grant that it is providing substantial service to the MTA. An MTA licensee must, three years from license grant, either show that the one-third population coverage standard has been satisfied, or provide written notification that it has elected to show substantial service to the MTA five years from license grant. In addition, as part of the election to provide a substantial service showing, each MTA licensee must, three years from license grant, indicate how it expects to demonstrate substantial service at five years. We find good cause under section 553(d)(3) of the Administrative Procedure Act (5 U.S.C. chapter 5) and 47 CFR 1.427(b) to depart

from the general requirement that final rules take effect not less than thirty days after their publication in the **Federal Register**. In this case, the three-year construction deadline for most licensees affected by this erratum is August 12, 1999. Therefore, to avoid any possible confusion of what a licensee would need to do if it elects the substantial service option, we make the effective date of the amended rule to be August 12, 1999.

Accordingly, 47 CFR Part 90 is corrected by making the following amendment:

PART 90—PRIVATE LAND MOBILE RADIO SERVICE

1. The authority citation for Part 90 is revised as follows:

Authority: Sections 4(i), 11, 303(g), 303(r), and 332(c)(7) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 161, 303(g), 303(r), 332(c)(7).

2. § 90.665(c) is revised to read as follows:

§ 90.665 Authorization, construction and implementation of MTA licenses.

* * * * *

(c) Each MTA licensee in the 896-901/935-940 MHz band must, three years from the date of license grant, construct and place into operation a sufficient number of base stations to provide coverage to at least one-third of the population of the MTA; further, each MTA licensee must provide coverage to at least two-thirds of the population of the MTA five years from the date of license grant. Alternatively, an MTA licensee must demonstrate, through a showing to the Commission five years from the date of license grant, that it is providing substantial service. An MTA licensee must, three years from license grant, either show that the 1/3 population coverage standard has been satisfied, or provide written notification that it has elected to show substantial service to the MTA five years from license grant. In addition, as part of the election to provide a substantial service showing, each MTA licensee must, three years from license grant, indicate how it expects to demonstrate substantial service at five years. The MTA licensee must meet the population coverage benchmarks regardless of the extent to
