SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Retired personnel employed by a public or community service employer, listed on the Registry of Public and Community Service Organizations, receive military service credit for all qualifying periods of employment during the enhanced retirement qualification period. This is the period beginning on the date of retirement and ending on the date the retired person would have attained 20 years of creditable service for retired pay purposes. Employers certify full-time, paid employment (full-time employment is defined by the organization concerned, but is typically at least 33 hours per week or 143 hours per month, including paid holidays and paid periods of leave or vacation). Retired personnel then mail the validation form to the Defense Manpower Data Center (DMDC) for review and processing in a data base designed for this purpose. For each qualifying period of employment, the amount of military service credit shall be computed by subtracting the date of the first day of employment or the first day of the enhanced retirement qualification period, whichever is later, from the date of the last day of employment or the last day of the enhanced retirement qualification period, whichever is earlier, and adding

1 day to account for inclusive dates. DMDC will then send retired personnel blank forms for future certification.
