

Date of issuance: July 8, 1999.
Effective date: July 8, 1999, shall be implemented within 30 days of the date of issuance.

Amendment No.: 125.
Facility Operating License No. NPF-42: The amendment revised the Technical Specifications.

Date of initial notice in Federal Register: February 24, 1999 (64 FR 9203). The May 11 and June 30, 1999, supplemental letters provided additional clarifying information, did not expand the scope of the application as originally noticed and did not change the staff's original proposed no significant hazards consideration determination, except that the licensee proposed a maximum plant inlet water temperature of 95° F. where the letters of January and May 11, 1999, proposed only 94° F. The amendment is limited to a maximum temperature of 94° F.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated July 8, 1999.

No significant hazards consideration comments received: No.

Local Public Document Room locations: Emporia State University, William Allen White Library, 1200 Commercial Street, Emporia, Kansas 66801 and Washburn University School of Law Library, Topeka, Kansas 66621.

Dated at Rockville, Maryland, this 21st day of July 1999.

For the Nuclear Regulatory Commission.

John A. Zwolinski,
Director, Division of Licensing Project Management Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

Correction to Biweekly Notice Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

On July 14, 1999 (64 FR 38040), the **Federal Register** published the

Biweekly Notice of Applications and Amendments to Operating Licenses. On page 38040, the line that reads "Amendment No.: 179." should read "Amendment No.: 180."

Dated at Rockville, Md., this 22nd day of July 1999.

For the Nuclear Regulatory Commission,
John A. Zwolinski,
Director, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.
 [FR Doc. 99-19257 Filed 7-27-99; 8:45 am]
 BILLING CODE 7590-01-P

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

SUMMARY: In accordance with the requirement of Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments Are Invited On

(a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Title and Purpose of Information Collection

Application for Survivor Death Benefits: OMB 3220-0031.
 Under Section 6 of the Railroad Retirement Act (RRA), lump-sum death benefits are payable to surviving widow

and widowers, children and certain other dependents. Lump-sum death benefits are payable after the death of a railroad employee *only* if there are no qualified survivors of the employee immediately eligible for annuities. With the exception of the residual death benefit, eligibility for survivor benefits depend on whether the employee was "insured" under the RRA at the time of death. If a deceased employee was not so insured, jurisdiction of any survivor benefits payable is transferred to the Social Security Administration and survivor benefits are paid by that agency instead of the RRB. The collection obtains the information required by the RRB to determine entitlement to and amount of the survivor death benefits applied for.

The RRB currently utilizes Form(s) AA-11a (Designation for Change of Beneficiary for Residual Lump-Sum), AA-21 (Application for Lump-Sum Death Payment and Annuities Unpaid at Death), G-131 (Authorization of Payment and Release of All Claims to a Death Benefit or Accrued Annuity Payment), and G-273a (Funeral Director's Statement of Burial Charges), to obtain the necessary information. One response is requested of each respondent. Completion is required to obtain benefits.

The RRB is proposing the addition of an electronic version of Form AA-21 to the collection. The information collected will mirror that obtained on the manual Form AA-21. Upon completion of the electronic AA-21, the applicant will receive Form AA-21cert for review and signature. The AA-21cert will summarize information provided by/or verified by the applicant. In addition, the RRB is proposing editorial and formatting changes to Form AA-11a, manual Form AA-21, G-131, and G-273a.

Estimate of Annual Respondent Burden

The estimated annual respondent burden is as follows:

Form #(s)	Annual responses	Time (min)	Burden (hrs)
AA-11A	400	10	67
Electronic AA-21 (with assistance)	9,700	20	3,230
Manual AA-21 (without assistance)	300	40	200
G-131	600	5	50
G-273A	9,600	10	1,600
Total	20,600	5,147
