

early, or mailing from any particular locale. Every application received during the mail-in period will have an equal random chance of being selected within its region. However, more than one application per person will disqualify the person from registration.

Selection of Winners

The selection of winners is made at random and no outside service can legitimately improve an applicant's chances of being chosen or guarantee that an entry will win. Any service that claims it can improve an applicant's odds is promising something it cannot lawfully deliver.

Notifying Winners

Only successful entrants will be notified. They will be notified by mail between April and July of 2000 at the address listed on their entry. Winners will also be sent instructions on how to apply for an immigrant visa, including information on the fee for immigrant visas and a separate visa lottery surcharge. Successful entrants must complete the immigrant visa application process and meet all eligibility requirements under U.S. law to be issued a visa.

Being selected as a winner in the DV Lottery does not automatically guarantee being issued a visa even if the applicant is qualified, because the number of entries selected and registered is greater than the number of immigrant visas available. Those selected will, therefore, need to complete and file their immigrant visa applications quickly. Once all the diversity visas have been issued or on September 30, 2001, whichever is sooner, the DV Program for Fiscal Year 2001 will end.

Obtaining Instructions on Entering the DV Lottery

Interested persons may call (202) 331-7199, which describes the various means to obtain further details on entering the DV-2001 program. Applicants overseas may contact the nearest U.S. embassy or consulate for instructions on the DV lottery. DV information is also available in the Visa Bulletin on the Internet at <http://travel.state.gov> or via the Consular Affairs automated fax at (202) 647-3000 (code 1103). Calls to the automated fax service must be made from a fax machine using the receiver or voice option of the caller's fax equipment.
