#### SUPPLEMENTARY INFORMATION:

Management of the BLM administered public lands in the South Pass area of Fremont County, Wyoming, is divided between the Lander BLM Field Office on the east and the Rock Springs BLM Field Office on the west. The Lander Resource Management Plan (RMP) was completed on June 9, 1987, and the Green River Resource Management Plan

(covering the Rock Springs Office administrative area) was completed on August 8, 1997. Some of the planning and management decisions for the South Pass area are inconsistent between the two RMPs. For example, compared to the Lander RMP decisions for the South Pass area, the more recent Green River RMP (1) Establishes the South Pass Historic Landscape, which encompasses the view shed along the Oregon, Mormon Pioneer, California, and Pony Express National Historic Trails; (2) establishes the South Pass Historic Landscape Area of Critical Environmental Concern (ACEC); and (3) among other management actions, identifies the South Pass Historic Landscape as an exclusion area for rights-of-way, closing this area to rights-of-way that could adversely affect the values of the Historic Landscape.

A review of the Lander RMP planning decisions for the eastern portion of the South Pass area is needed to further evaluate them for consistency with the adjacent Green River RMP decisions and for adequacy of existing management prescriptions for the protection of the visual and historical integrity of the historic trails and surrounding landscape. Any needed changes in existing management or any new management actions to be prescribed for the eastern portion of the area will be identified and, if necessary, the Lander RMP will be amended.

The planning review will include opportunities for public participation. These opportunities will be announced through **Federal Register** notices, media releases, and mailings. The public will be invited to one or more meetings to discuss problems, conflicts, concerns, and management alternatives. The National Environmental Policy Act (NEPA) environmental analysis process will be used for evaluating these alternatives and for identifying any needed changes in the management prescription for the area.

If the planning review results in the need to amend the Lander RMP, other notices, mailings, or media releases will announce a 30-day protest period on the proposed amendment.

Dated: July 28, 1999.

*Associate State Director.*
