

EPA is implementing the Data Call-In in phases over the next several months to ensure that data from the highest priority neurotoxic pesticides are called in first and that the laboratory capacity available to pesticide registrants is adequate to perform the studies within the required timeframes. This program to call in data will apply to approximately 140 pesticides. The cholinesterase-inhibiting organophosphates have been selected to be the first chemical class to be called in, based on their known neurotoxicity concerns. EPA expects to receive the first studies within 2 years. This Data Call-In program was developed with the advice of the Children's Health Advisory Committee and the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6407-9]

Proposed Administrative Settlement Agreement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as Amended by the Superfund Amendments and Reauthorization Act—Upper Tenmile Creek Watershed Site, Lewis and Clark County and Jefferson County, Montana

AGENCY: Environmental Protection Agency.

ACTION: Notice and request for public comment.

SUMMARY: Notice is hereby given of a proposed settlement under the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (CERCLA), concerning the Upper Tenmile Creek Watershed site in Lewis and Clark County and Jefferson County, Montana (Site). The proposed settlement agreement (Agreement) requires the Chapter 7 bankruptcy estates of Pegasus Gold Montana Mining, Inc. (PGMMI) and Pangea Explorations, Inc. (PEI) to transfer an environmental protection easement and dedication of restrictive uses to property

within the Basin Creek Mine, located within the Site, to Lewis and Clark County of the benefit of the United States Environmental Protection Agency (EPA). EPA intends to use a portion of the property, known as the Luttrell Pit, for a mine waste repository for abandoned mine removal actions which will be undertaken pursuant to EPA's CERCLA authorities.

The settlement resolves the Estates' CERCLA liability for the Luttrell Pit. Because of the Estates' obligations to reclaim the Basin Creek Mine pursuant to the Montana Metal Mine Reclamation Act, Mont. Code Ann. section 82-4-301 *et seq.*, the State of Montana, acting by and through the Department of Environmental Quality, is a party to the Agreement. Additionally, the Agreement is subject to the approval of the United States Bankruptcy Court, District of Nevada.

DATES: For a period of ten (10) days from the date of publication of this document, the public may submit comments to EPA relating to this proposed settlement.

ADDRESSES: The proposed settlement is available for public inspection at the EPA Superfund Record Center, 999 18th Street, 5th Floor, North Tower, Denver, Colorado, (303) 312-6473. Comments should be addressed to Carol J. Pokorny, Enforcement Specialist, (8ENF-T), U.S. Environmental Protection Agency, 999 18th Street, Suite 500, Denver, Colorado, 80202-2466, and should reference the Upper Tenmile Creek Watershed site Basin Creek Mine Agreement.

FOR FURTHER INFORMATION CONTACT: Suzanne Bohan, Enforcement Attorney, at (303) 312-6925.

Dated: July 12, 1999.
