Notice of Inventory Completion for Native American Human Remains in the Possession of the South Dakota State Archaeological Research Center, Rapid City, SD

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains in the the possession of the South Dakota State Archaeological Research Center, Rapid City, SD.

A detailed assessment of the human remains was made by South Dakota State Archaeological Research Center (SARC) professional staff in consultation with representatives of the Rosebud Sioux Tribe of the Rosebud Indian Reservation and the Lower Brule Sioux Tribe of the Lower Brule Reservation.

Around 1870, human remains representing one individual were recovered in eastern Montana by B.C. Coleman of Spearfish, SD. In 1995, these human remains were discovered in the collections of the Adams Memorial Museum, Deadwood, SD and were transferred that same year to the South Dakota State Archaeological Research Center. No known individual was identified. No associated funerary objects are present.

Based on cranial morphology and dentition, this individual has been identified as Native American. Extensive copper staining on the cranium indicates a post-1700 AD date for this burial. Based on crainometric measurements, oral tradition, and historical evidence, the cultural affiliation of this individual from eastern Montana is most likely with the Brule division of the Lakota tribe. The Brule currently reside and are represented by the Rosebud Sioux Tribe of the Rosebud Indian Reservation and the Lower Brule Sioux Tribe of the Lower Brule Reservation.

Based on the above mentioned information, officials of the South Dakota State Archaeological Research Center have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the South Dakota State Archaeological Research Center have also determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and the Rosebud Sioux Tribe of the Rosebud Indian Reservation and the Lower Brule Sioux Tribe of the Lower Brule Reservation.

This notice has been sent to officials of the Rosebud Sioux Tribe of the Rosebud Indian Reservation and the Lower Brule Sioux Tribe of the Lower Brule Reservation. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Renee Boen,
