## Bureau of Land Management

[CO-930-4214-010; COC-61627]

**Notice of Meeting on Proposed Withdrawal; Mt. Emmons Iron Bog/Fen; Colorado**

August 3, 1999.

**AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice of public meeting.

**SUMMARY:** This notice sets forth the schedule and agenda for a forthcoming meeting on the Forest Service withdrawal application for the Mt. Emmons Iron Bog/Fen for protection of natural resource and scientific research values near Crested Butte, Colorado. This meeting will provide the opportunity for public involvement in this proposed action as required by regulation. All comments will be considered when a final determination is made on whether this land should be withdrawn.

**DATES:** Meeting will be held on September 15, 1999, at 7:00 p.m. All comments or requests to be heard should be received by close of business on September 3, 1999, at the Colorado State Office.

**ADDRESSES:** The meeting will be held at the Gunnison County Commissioners' Office, 200 East Virginia (Second Floor), Gunnison, Colorado 81230.

**FOR FURTHER INFORMATION CONTACT:** Doris E. Chelius, BLM Colorado State Office, (303) 239-3706.

**SUPPLEMENTARY INFORMATION:** The Notice of Proposed Withdrawal for the Mt. Emmons Bog/Fen which was published in the **Federal Register** on November 16, 1998, (63 FR 63745), is hereby modified to schedule a public meeting as provided by 43 U.S.C. 1714, and 43 CFR 2310.

This meeting will be open to all interested persons; those who desire to be heard in person and those who desire to submit written comments on this subject. All comments and requests to be heard should be submitted to the Colorado State Director, Bureau of Land Management, 2850 Youngfield Street, Lakewood, Colorado 80215-7093, by September 3, 1999.

**Jenny L. Saunders,***Realty Officer.*

## Minerals Management Service

**Agency Information Collection Activities: Proposed Collection; Comment Request****AGENCY:** Minerals Management Service (MMS), Interior.**ACTION:** Notice of extension of a currently approved information collection (OMB Control Number 1010-0057).

**SUMMARY:** As part of its continuing effort to reduce paperwork and respondent burden, MMS invites the public and other Federal agencies to comment on a proposal to extend the currently approved collection of information discussed below. The Paperwork Reduction Act of 1995 (PRA) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number.

**DATES:** Submit written comments by October 12, 1999.**ADDRESSES:** Mail or hand carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817.**FOR FURTHER INFORMATION CONTACT:** Alexis London, Rules Processing Team, telephone (703) 787-1600. You may also contact Alexis London to obtain a copy of the collection of information at no cost.**SUPPLEMENTARY INFORMATION:**  
*Title:* 30 CFR 250, Subpart C, Pollution Prevention and Control (1010-0057).

*Abstract:* The Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1331 *et seq.*, gives the Secretary of the Interior (Secretary) the responsibility to preserve, protect, and develop oil and gas resources in the OCS. This must be done in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resource development with protection of the human, marine, and coastal environments; ensure the public a fair and equitable return on the resources of the OCS; and preserve and maintain free enterprise competition. The OCS Lands Act Amendments of 1978 also gave the Secretary the responsibility to minimize or eliminate conflicts among the exploration, development, and production of oil and natural gas and the recovery of other

resources such as fish and shellfish. The OCS Lands Act at 43 U.S.C. 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well-trained personnel using technology, precautions, and techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstruction to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health." The OCS Lands Act at 43 U.S.C. 1334(a)(8) also requires the Secretary to administer the provisions of this subchapter relating to the leasing of the OCS, and prescribe such rules and regulations as may be necessary "for compliance with the national ambient air quality standards pursuant to the Clean Air Act (42 U.S.C. 7401 *et seq.*), to the extent that activities authorized under this Act significantly affect the air quality of any State." The OCS Lands Act Amendments at 43 U.S.C. 1843(b) direct the Secretary to "establish regulations requiring all materials, equipment, tools, containers, and all other items used on the Outer Continental Shelf to be properly color coded, stamped, or labeled, wherever practicable, with the owner's identification prior to actual use."

Regulations at 30 CFR 250, subpart C, "Pollution, Prevention and Control" implement these statutory requirements. We use the information collected and records maintained under subpart C to ensure:

- There is no threat of serious, irreparable, or immediate damage to the marine environment and to identify potential hazards to commercial fishing caused by OCS oil and gas exploration, development, and production activities;
- The location of items lost overboard is recorded to aid in recovery by the operator during site clearance activities on the lease;
- Operations are conducted according to all applicable regulations, permit conditions and requirements, and conducted in a safe and workmanlike manner;
- OCS oil and gas operations minimize air pollution of the OCS and adjacent onshore areas and comply with the emission levels specified in the MMS Development and Production Plan approval conditions;
- A data baseline is established for the meteorological, oceanographic, and sea-ice conditions in frontier areas of the OCS to determine that offshore facilities and operational practices can withstand the expected environmental forces in an area;
