

manufacturers have agreed to sell these cleaner vehicles throughout the State for the duration of the National LEV program. This SIP revision is required as part of the agreement between States and automobile manufacturers to ensure the continuation of this program to bring clean cars throughout the country, beginning with 1999 model year vehicles. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.
