

configuration of land uses on San Clemente Island; and (f) developing procedures to ensure statutory obligations for endangered species, natural, and cultural resources are met while minimizing operational constraints. Each of these qualitative actions is needed for Navy and Marine Corps units to reach the fully ready level required for deployment.

The EIS/OEIS will consider a range of alternatives consisting of various combinations of the above elements. The No Action Alternative, consisting of training and testing activities at current levels of operations, will also be evaluated.

Environmental issues that will be addressed in the EIS/OEIS include but are not limited to: air quality, noise, vegetation and wildlife (including marine mammals and endangered species), cultural resources, land use, water quality, public health and safety and socioeconomics (including environmental justice).

In accordance with NEPA, Navy will initiate a public scoping process to assist in identifying relevant environmental issues to be analyzed in this EIS/OEIS. Federal, state, and local agencies and other interested parties are invited and encouraged to participate in the scoping process. Navy will hold three public meetings. Each meeting will consist of an informal information session, staffed by Navy representatives, to be followed by a brief presentation which discusses current operations in the SCI Range Complex and a description of the proposed action and alternatives. Comments will be entered into the official record in several ways. Members of the public can contribute oral or written comments at the scoping meetings, or subsequent to the meetings by mail, fax, or e-mail. Technical statements or statements of considerable length should be submitted in writing. Oral comments may be made at the scoping meeting and will be limited to 3 minutes per individual. All comments, whether oral or written, will receive the same consideration during EIS/OEIS preparation. Individuals or groups with special needs, such as accessibility, foreign language translation, assistance for the blind or hearing impaired, should contact this agency by September 5, 1999.

Dated: August 11, 1999.

Pine Needle LNG Company, LLC; Notice of Tariff Filing

August 11, 1999.

Take notice that on August 6, 1999, Pine Needle LNG Company, LLC (Pine Needle), tendered for filing to become part of its FERC Gas Tariff, Original Volume No. 1, Substitute First Revised Sheet No. 89, to become effective August 1, 1999.

Pine Needle states that the purpose of the instant filing is to revise its tariff sheet to incorporate certain of the GISB definitions and revise certain of the GISB standards and data sets to Version 1.3 pursuant to the Commission order issued July 23, 1999. Accordingly, the only data sets listed in the tariff sheet under Version 1.2 are those for which Pine Needle has requested, and the Commission has granted, a waiver. The July 23 order granted Pine Needle an extension of time until June 1, 2000 to incorporate Version 1.3 of those data sets.

Additionally, Pine Needle is submitting a table attached as Appendix A showing the GISB Version 1.3 standard, the complying tariff sheet number, and an explanatory statement, if necessary, describing any reasons for deviation for deviation from or changes to each GISB standard.

Pine Needle states that it is serving copies of the instant filing to its affected customers and interested State Commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations.
