Porcelain-on-Steel Cookware From Mexico: Notice of Extension of Time Limit for Preliminary Results in Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: August 20, 1999.

FOR FURTHER INFORMATION CONTACT: Kate Johnson at (202) 482-4929, or Rebecca Trainor at (202) 482-4007, Office 2, AD/CVD Enforcement Group I, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C., 20230.

SUMMARY: The Department of Commerce is extending the time limit for the preliminary results of the twelfth administrative review of the antidumping duty order on porcelain-on-steel cookware from Mexico, which covers the period December 1, 1997, through November 30, 1998.

Postponement

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act (the Act), the Department of Commerce (the Department) shall make a preliminary determination in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period. The Department finds that it is not practicable to complete the preliminary results in this twelfth administrative review of certain porcelain-on-steel cookware from Mexico within this time limit due to a number of complex issues, including reimbursement.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time for completion of the preliminary results of this review until November 1, 1999.

Dated: August 16, 1999.

Susan Kuhbach,

Acting Deputy Assistant Secretary for Import Administration.

Revocation of Antidumping Finding: Synthetic Methionine From Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of revocation of antidumping finding: Synthetic methionine from Japan.

SUMMARY: Pursuant to section 751(c) of the Tariff Act from 1930, as amended ("the Act"), the United States International Trade Commission ("the Commission") determined that revocation of the antidumping finding on synthetic methionine from Japan is not likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time (64 FR 38693 (July 19, 1999)). Therefore, pursuant to section 19 CFR 351.222(i)(1), the Department of Commerce ("the Department") is revoking the antidumping finding on synthetic methionine from Japan.

Pursuant to section 751(c)(6)(A)(iv) of the Act, the effective date of revocation is January 1, 2000.

FOR FURTHER INFORMATION CONTACT: Scott E. Smith or Melissa G. Skinner, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Ave., NW, Washington, DC 20230; telephone: (202) 482-6397 or (202) 482-1560, respectively.

EFFECTIVE DATE: January 1, 2000.

Background

On August 3, 1998, the Department initiated, and the Commission instituted, a sunset review (63 FR 41227 and 63 FR 41290, respectively) of the antidumping finding on synthetic methionine from Japan pursuant to section 751(c) of the Act. As a result of the review, the Department found that revocation of the antidumping finding would likely lead to continuation or recurrence of dumping and notified the Commission of the magnitude of the margin likely to prevail were the finding to be revoked (*see Final Results of Expedited Sunset Review: Synthetic Methionine from Japan*, 63 FR 67665 (December 8, 1998), as amended 64 FR 30488 (June 8, 1999)).

On July 19, 1999, the Commission determined, pursuant to section 751(c) of the Act, that revocation of the antidumping finding on synthetic methionine would not likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time (*see Synthetic Methionine from Japan*, 64 FR 38693 (July 19, 1999), and USITC Pub. 3205, Inv. No. AA1921-115 (Review) (July 1999)).

Scope

The merchandise covered by this finding is shipments of synthetic methionine other than synthetic L methionine. Synthetic methionine is an amino acid produced in two grades, DL methionine national formula grade (used for research and pharmaceutical purposes) and L methionine feed grade (used as a food additive). Both grades of synthetic methionine are currently classifiable under item 425.0420 of the Tariff Schedules of the United States Annotated and Harmonized System item number 2930.40.00. Although the HTSUS subheading is provided for convenience and customs purposes, the written description remains dispositive.

Determination

As a result of the determination by the Commission that revocation of this antidumping finding is not likely to lead
