Alliance for Cooperative Energy Services Power Marketing LLC; Notice of Filing

August 19, 1999.

Take notice that on August 2, 1999, Alliance for Cooperative Energy Services Power Marketing LLC tendered for filing a transaction report for quarter ended June 30, 1999.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before August 30, 1999. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP99-599-000]

Paiute Pipeline Company; Notice of Application

August 19, 1999.

Take notice that on August 11, 1999, Paiute Pipeline Company (Paiute), P.O. Box 94197, Las Vegas, Nevada 89193-4197, filed in Docket No. CP99-599-000, an application pursuant to Sections 7(b) and 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations for an order granting a certificate of public convenience and necessity, and permission and approval to abandon facilities. Paiute proposes to replace a segment of deteriorating pipeline on its Carson Lateral and at the same time enhance the capacity on its Carson Lateral to meet the growth requirements of its shippers served by that portion of Paiute's mainline system, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The application may be viewed on the web at www.ferc.fed.us/online/rims.htm (call (202) 208-2222 for assistance).

Paiute proposes to replace a deteriorated portion of the original 10-inch transmission line on its Carson Lateral. Paiute states that due to the existing and projected load growth in the areas served by the Carson Lateral,

it also proposes to enhance the capacity of its Carson Lateral facilities by replacing the deteriorated segment with 20-inch diameter pipeline and by installing two new loop pipeline segments. Specifically, Paiute proposes to: (1) construct and operate approximately 5.5 miles of 20-inch replacement pipeline between mileposts 31.85 and 37.34 on the Carson Lateral in Lyon County, Nevada; (2) abandon in place approximately 5.5 miles of existing 10.75-inch pipeline between mileposts 31.85 and 37.34 on the Carson Lateral in Lyon County, Nevada; (3) construct and operate approximately 2.3 miles of 20-inch loop pipeline between mileposts 2.95 and 5.25 on the Carson Lateral in Storey and Lyon Counties, Nevada; and (4) construct and operate approximately 1.9 miles of 12.75-inch loop pipeline between mileposts 14.28 and 16.18 on its South Tahoe Lateral in Douglas County, Nevada.

Paiute states that in response to a general open season held early this year, Southwest Gas Corporation-Northern Nevada (Southwest-Northern Nevada) indicated that there had been a significant shift in its forecasted requirements and it requires additional delivery capability from Paiute downstream of the Wadsworth Junction in order to meet its projected winter peak day load profile for northern Nevada. Paiute further states that under the service agreement with Southwest-Northern Nevada, Paiute is not obligated to transport more than 65,350 Dth per day of gas for Southwest-Northern Nevada through the Wadsworth Junction. Southwest-Northern Nevada requested that level to be increased by 10,800 Dth to 76,150 Dth.¹ Paiute also states that Sierra Pacific Power Company wants to have the capability to have transported and delivered to the Fort Churchill Power Plant up to the full contractual maximum daily quantity for that delivery point on a winter peak demand day. Paiute states that in order to maintain such capability and to meet the requirements of its other firm shippers served by the Carson Lateral, Paiute needs to install the proposed facilities.

The estimated cost of the proposed facilities is \$5,425,000. The cost to abandon in place the existing 10.75-inch pipeline segment is estimated to be

¹ Paiute states that the proposed facilities will add a nominal quantity of capacity on the Carson Lateral of 10,800 Dth on a design winter peak day. Paiute also states that upon placing the facilities in service, it intends to amend its service agreement with Southwest-Northern Nevada to increase by 10,800 Dth the limit on the quantity of gas that Paiute is obligated to transport for Southwest-Northern Nevada through the Wadsworth Junction.

\$22,000. Paiute states that it proposes to finance the above-described costs through ongoing regular financing programs and internally generated funds. Paiute requests the Commission to make a determination that the costs of the proposed facilities can be rolled into Paiute's systemwide rates in Paiute's next general rate case under Section 4 of the NGA. Paiute states that the proposed construction satisfies each of the three criteria required by the Policy Statement for rolled-in pricing. Paiute requests authorization no later than March 1, 2000, so that the proposed facilities can be constructed and placed in service by November 1, 2000.

Any questions regarding this application should be directed to Edward C. McMurtrie at (702) 876-7178, Paiute Pipeline Company, P.O. Box 94197, Las Vegas, Nevada 89193-4197.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 9, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a motion to intervene in accordance with the Commission's rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents issued by the Commission, filed by the applicant, or filed by all other intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must serve copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as filing an original and 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of such comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of

environmental documents, and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission, and will not have the right to seek rehearing or appeal the Commission's final order to a Federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by Sections 7 and 15 of the NGA and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Paiute to appear or to be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.
