#### Allegheny Hydro No. 8 and 9 Limited Partnership and Connecticut National Bank; Notice of Availability of Final Environmental Assessment

August 20, 1999.

A final environmental assessment (EA) is available for public review. The final EA analyzes the environmental impacts of installing 15-inch flashboards on the top of Lock and Dam 9, part of the Allegheny River Lock and Dam 8 and 9 Hydroelectric Project No. 3021-048. The Commission is requiring flashboards, from about May 1 through October 31 each year, to rectify project-induced lower water levels in the Lock

9 pool. The final EA contains Commissions staff's analysis that 15-inch flashboards are needed and installation would not constitute a major federal action significantly affecting the quality of the human environment. The Allegheny River Lock and Dam 8 and 9 Project is on the Allegheny River near the City of Kittanning, in Armstrong County, Pennsylvania.

The final EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the final EA are available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, D.C. 20426, or by calling (202) 208-1371. The final EA may be viewed on the web at [www.ferc.fed.us/online/rims/htm](http://www.ferc.fed.us/online/rims/htm). Call (202) 208-2222 for assistance.
