Approval and Promulgation of State Implementation Plans: Alaska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revisions submitted by the State of Alaska which include revisions to Alaska's Air Quality Control Regulations (18 AAC 50), Emissions Inspection and Maintenance (I/M) requirements for Motor Vehicles (18 AAC 52), and Fuel Requirements for Motor Vehicles (18 AAC 53).

In addition, the revisions include changing the I/M program schedule for cars subject to I/M from annual to

biennial, replacing the CO contingency measures for Anchorage, updating Alaska's General and Transportation conformity programs, and streamlining several portions of the Alaska Air Quality Control Plan for more efficient reading and organization. In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received in writing by October 1, 1999.
