#### Correction

In the **Federal Register** issue dated June 10, 1999, 64 FR 31188-31192 make the following corrections to clarify information regarding principal investigators and proposal submissions. On page 64 FR 31189, line 25 in third column, under "Program Priorities" insert the following text:

A proposal must be submitted by multiple principal investigators from the same college or university. NOAA or other Government employees are not allowed to be listed as principal investigators, although collaboration between the academic community and NOAA within the project is strongly encouraged.

On page 31191, second column, under "Proposal Submission," add as the third sentence the following:

Failure to be in compliance with or address all 5 elements under "Proposals," all 7 elements under "Required Elements," and all 13 elements under "Other Requirements," by the deadline of October 1, 1999, will result in proposals being returned to the submitter.
