

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following information collection was published on March 1, 1999 [64 FR 10060].

DATES: Comments must be submitted on or before October 4, 1999.

FOR FURTHER INFORMATION CONTACT: Mr. David Longo, (202) 366-0456, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:00 a.m. to 4:00 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: No-Zone Campaign Assessment.
Type of Request: Approval of a new information collection.

Affected Public: Approximately 1,100 adult licensed drivers randomly selected from the public.

Abstract: "No-Zone" is a highway safety term used to describe danger areas around trucks and buses where crashes are more likely to occur. The purpose of the No-Zone campaign is to help reduce the number of car-truck crashes, injuries, fatalities, and property loss by increasing motorists' awareness of the No-Zone. The FHWA will conduct a quantitative analysis of the No-Zone campaign and its messages by developing and administering a baseline evaluation study designed to quantify respondents' knowledge of truck and bus limitations; their knowledge of "share the road" issues; and their knowledge of the No-Zone campaign and its messages. It is anticipated that a sample of 4,000 respondents will be drawn in order to complete 1,100 interviews in households with telephones using a national random digit dial.

Frequency: The survey will be conducted now for a baseline analysis and again in approximately three to five years to assess improvements.

Estimated Burden: The estimated total annual burden is 92 hours (1,100 responses x 5 minutes per response).

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW.,

Washington, DC 20503, Attention: DOT Desk Officer. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication of this Notice.

Issued on: August 30, 1999.

Michael J. Vecchiotti,

Director, Office of Information and Management Services.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Environmental Impact Statement; Aroostook County, Maine**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared to improve transportation efficiency in Aroostook County, Maine. The EIS will examine highway infrastructure improvements to enhance transportation mobility and accessibility to and from Aroostook County, as well as within the County. These improvements are being considered as a means to improve the region's economy by improving access to jobs and services and by reducing travel time to markets outside Maine's northern-most County. The purpose of this study is to identify a Preferred Corridor only.

FOR FURTHER INFORMATION CONTACT: Mr. James F. Linker, Manager, Right of Way and Environmental Programs, Maine Division, Federal Highway Administration, 40 Western Ave., Augusta, Maine 04330, Tel. 207/622-8355, ext. 23; Ray Faucher, Project Manager, Maine Department of Transportation, State House Station 16, Augusta, Maine 04333-0016, Tel. 207/287-3172.

SUPPLEMENTARY INFORMATION: The purpose of this EIS is to establish a one-

half mile wide corridor for future highway development. The area under consideration, from the towns of Smyrna Mills to Madawaska, is quite large and bounded on the west by Route 11, on the south by I-95, and on the north and east by the Canadian border. The enclosed area is roughly twice the size of the state of Rhode Island.

The EIS will study up to seven corridors alternatives, including upgrades within existing highway corridors and corridors on new location. The seven corridors, plus the no-action alternative, will be selected through a screening process of up to 20 preliminary corridors. The corridors will be selected for review based on their ability to provide transportation benefits and their environmental impacts. It is anticipated that highway segments with logical termini and independent utility will be constructed in the future within the selected corridor. Each segment will be supported by a separate environmental document in the later construction phase.

An 18-member public advisory committee has been established to represent the interests within the study area and to assist in the preparation of the EIS. Public scoping meetings will be held at the following locations: the Frenchville Community Center in Frenchville, September 14, 1999; the Northern Maine Technical College in Presque Isle, September 15, 1999; and the Miller Civic Center in Houlton on September 16, 1999.

Authority: 23 U.S.C. 315; 49 CFR 1.48.

Issued on: August 27, 1999.

Paul L. Lariviere,

Division Administrator, Federal Highway Administration, Augusta, Maine.
