Southeastern Hydro-Power, Inc.;
Notice of Availability of Draft
Environmental Assessment

August 30, 1999.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, the Office of Hydropower Licensing has reviewed the application requesting the Commission's authorization to amend the license for the proposed W. Kerr Scott Hydroelectric Project, to be located on the Yadkin River immediately below the existing W. Kerr Scott Dam, operated by the Wilmington District Corps of

Engineers, in Wilkes County, North Carolina, and has prepared a Draft Environmental Assessment (DEA) for the proposed action.

In the DEA, Commission staff concludes that approval of the subject amendment of license with staff's recommended mitigative measures would not produce any significant adverse environmental impacts; consequently, the proposal would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the DEA can be viewed at the Commission's Public Reference Room, Room 2A, 888 First Street, NE, Washington, DC 20426, or by calling (202) 208-1371. The DEA also may be viewed on the Web at www.ferc.fed.us/online/rims.htm. Call (202) 208-2222 for assistance.

Any comments should be filed within 30 days from the date of this notice and should be addressed to David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426. Please affix "W.
