

FTZ procedures would exempt Clariant from Customs duty payments on the foreign components used in export production. Some 10 percent of the plant's shipments are exported. On its domestic sales, Clariant would be able to choose the duty rates during Customs entry procedures that apply to finished electronic chemicals (6.0–6.5%) for the foreign inputs noted above. In addition, Clariant products shipped to semiconductor manufacturers with subzone status could be subject to the semiconductor duty rate (duty-free). The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been appointed examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 8, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period November 22, 1999.

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

### International Trade Administration

#### Extension of Time Limit for Final Results of Five-Year Reviews

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Extension of Time Limit for Preliminary Results of Five-Year ("Sunset") Reviews.

**SUMMARY:** The Department of Commerce ("the Department") is extending the

time limit for the final results of 23 expedited sunset reviews initiated on May 3, 1999 (64 FR 23596) covering various antidumping and countervailing duty orders. Based on adequate responses from domestic interested parties and inadequate responses from respondent interested parties, the Department is conducting expedited sunset reviews to determine whether revocation of the antidumping and countervailing duty orders would be likely to lead to continuation or recurrence of dumping or a countervailable. As a result of these extensions, the Department intends to issue its final results not later than November 29, 1999.

**EFFECTIVE DATE:** September 7, 1999.

**FOR FURTHER INFORMATION CONTACT:** Scott E. Smith or Melissa G. Skinner, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482–6397, or (202) 482–1560 respectively.

#### Extension of Final Results

In accordance with section 751(c)(5)(C)(v) of the Tariff Act of 1930, as amended ("the Act"), the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995; *see* section 751(c)(6)(C) of the Act). The Department has determined that the sunset reviews of the following antidumping and countervailing duty orders are extraordinarily complicated:

A–549–502 Welded Carbon Steel Pipes and Tubes from Thailand
