

provide better notice of the restriction and should reduce the likelihood of confusion over which letters are intended to be restricted and which letters are not. Finally, by expressly stating that letters of credit may be denominated in any foreign trading currency is unnecessary in light of other provisions in OCC's rules that specify that letters of credit may be denominated in any currency.

The Commission also finds that the rule change is consistent with OCC's obligations under the Act to foster cooperation and coordination with persons engaged in the clearance and settlement of securities transactions. The ULC was developed by OCC and the other members of the UCG to foster uniformity among the various U.S. securities and futures clearing organizations with respect to letters of credit that are deposited as collateral. This uniformity will help reduce operational burdens for securities and futures industry participants and their letter of credit issuers. It should also enhance the legal certainty that the letters of credit received by OCC and other UCG members as collateral will be enforceable.

III. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular Section 17A of the Act and the rules and regulations thereunder.

It Is Therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (File No. SR-OCC-99-01) be and hereby is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.⁶

Deputy Secretary.
