Notice of Intent to Prepare an Environmental Impact Statement to Amend the General Management Plan for the Backcountry of Denali National Park and Preserve

AGENCY: National Park Service, Interior.

SUMMARY: The National Park Service (NPS) is preparing an amendment to the general management plan, a backcountry management plan and an accompanying environmental impact statement (EIS) for Denali National Park and Preserve. The purpose of the management plan and EIS is to formulate a comprehensive plan for the backcountry, including designated wilderness, of Denali National Park and Preserve that will provide management direction over the next 15-20 years. This new management plan will amend the 1986 General Management Plan for the backcountry of Denali National Park and Preserve. The backcountry of Denali National Park and Preserve is defined to include all of the park except for those areas designated specifically for development in the entrance area and along the road corridor. Many issues to be addressed in the backcountry management plan would affect the entire park, including developed areas. The NPS has initiated this management plan and EIS to address the rapidly growing level and diversity of uses, resource management needs, and the anticipated demand for future uses not foreseen or addressed in the 1986 General Management Plan.

Primary issues that the management plan and EIS will address are types and levels of visitor use, the visitor experience, resource protection, subsistence use, facility development and maintenance, administration of the backcountry management program, coordination with other land management agencies, research and other scientific uses, motorized uses including snowmachine and aircraft use, and fire management.

The proposed action in the management plan and EIS will include guidelines for the types and levels of a variety of backcountry uses and outline methods for resource protection. The proposal will allocate visitor use of the backcountry to prevent user conflicts and to continue providing for high quality visitor experiences and diverse opportunities. The proposed action will include zoning to provide for a spectrum of visitor opportunities ranging from motorized use areas to "quiet zones" where motorized uses would be prohibited. This will address visitor and management concerns about the existing conditions in which user conflicts occur.

Possible alternatives in the EIS will propose variations in the types and levels of backcountry uses. One alternative to the proposed action will be to provide for expanded uses similar to the level and types of uses in national parks in the lower 48. A second alternative will limit recreational and other backcountry uses so that Denali National Park and Preserve would be more comparable to other large national parks in Alaska with less visitor use. A no action alternative will also be included.

The NPS is seeking ideas on possible alternatives. The NPS will hold open house scoping sessions in fall 1999 in Fairbanks, the Denali National Park area, Talkeetna/Trapper Creek, and Anchorage. Specific dates, times, and locations of these scoping sessions will be announced in area newspapers. The NPS will continue to meet with other government agencies, organizations, and the public for information sharing.

The draft management plan/EIS is anticipated to be available for public review in late summer 2000. Public meetings will be scheduled in the Denali National Park/Healy area, the Talkeetna/Trapper Creek area, Fairbanks, and Anchorage, Alaska, after release of the draft management plan/EIS. The final EIS is expected to be released during summer 2001.

Interested groups, organizations, individuals and government agencies are invited to comment on the plan. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours.

Individual respondents may request that we withhold their home address from the administrative record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

The EIS is being prepared in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4331 et seq.) and its implementing regulations at 40 CFR part 1500.

FOR FURTHER INFORMATION CONTACT: Stephen P. Martin, Superintendent, Denali National Park and Preserve, PO Box 9, Denali Park, Alaska 99755.

Telephone (907) 683-2294.

Dated: September 1, 1999.

John Quinley,
Acting Regional Director, Alaska.

National Register of Historic Places;
Notification of Pending Nominations

Nominations for the following properties being considered for listing in the National Register were received by the National Park Service before September 4, 1999. Pursuant to § 60.13 of 36 CFR, part 60 written comments concerning the significance of these properties under the National Register criteria for evaluation may be forwarded to the National Register, National Park Service, 1849 C St. NW, NC400, Washington, DC 20240. Written comments should be submitted by September 28, 1999.

Carol D. Shull,
Keeper of the National Register.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Custer County, SD in the Possession of the South Dakota State Archaeological Research Center, Rapid City, SD

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects from Custer County, SD in the possession of the South Dakota State Archaeological Research Center, Rapid City, SD.

Between 1935 and 1950, human remains representing three individuals were recovered from the Phelps site (39CU206) located on the left bank of Battle Creek, Custer County, SD by Mrs. Phelps, the private landowner of the site. No known individuals were identified. The seven associated funerary objects include one unidentifiable mammal rib, two ceder fragments, one limestone bead, charcoal, one stone biface, and one stone uniface.

Based on the associated funerary objects and the manner of interment, these individuals have been identified as Native American. The associated funerary objects, manner of interment, and the remains of the artifact assemblage from the site, including side-notched projectile points, freshwater shells, large bifaces, and ceramics, indicate the burials date to the Upper Republican Aspect of the Central Plains Tradition (1000-1500 A.D.). Based on continuities of material culture, architecture, skeletal morphology, oral tradition, and historical evidence, the cultural affiliation of the Phelps site and the individuals listed above can be affiliated with the Arikara. In 1870, the Mandan, Hidatsa, and Arikara tribes were moved to the Fort Berthold Indian Reservation in North Dakota and are now known as the Three Affiliated Tribes of the Fort Berthold Reservation.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Custer County, SD in the Possession of the South Dakota State Archaeological Research Center, Rapid City, SD

Classification of the human remains and associated funerary objects:

Classification of the human remains:

Ancestry: Middle and Late Prehistoric Hohokam, Anasazi, and Mogollon;

Gender: Male;

Age at Death: Adult;

Burial Position: Full-Incised Shell Container Burial;

Burial Source: Excavation by the Phelps family.

Classification of the associated funerary objects:

Artifacts:

Projectile Point:

Description: Side-notched

Material: Stone

Burial Source: Excavation by the Phelps family.
