revisions to conservation practice standards used to carry out the highly erodible land and wetland provisions of the law. For the next 60 days, NRCS will receive comments relative to the proposed changes. Following that period, a determination will be made by NRCS regarding disposition of those comments, and a final determination of change will be made.

Rural Utilities Service

Brazos Electric Power Cooperative, Inc.: Notice of Availability of an Environmental Assessment

AGENCY: Rural Utilities Service, USDA. ACTION: Notice of availability of an environmental assessment.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS) is issuing an Environmental Assessment with respect to the potential environmental impacts related to the construction and operation of the Lewisville 345/138 kV Switching Station in the City of Lewisville, Texas. The project is proposed by Brazos Electric Power Cooperative, Inc. (Brazos), of Waco, Texas. RUS may provide financing assistance for the project.

FOR FURTHER INFORMATION CONTACT: Dennis E. Rankin, Environmental Protection Specialist, RUS, Engineering and Environmental Staff, Stop 1571, 1400 Independence Avenue, SW, Washington, DC 20250–1571, telephone: (202) 720–1953 or e-mail: drankin@rus.usda.gov; or David McDaniels, Brazos, PO Box 2585, Waco, Texas 76702–2585, telephone: (254) 750–6324 or e-mail: dmcdaniel@brazoselectric.com.

SUPPLEMENTARY INFORMATION: Brazos is planning to construct an 8–10 acre 345/138 kV switching station in Denton County, Texas. The proposed site is located in the vicinity of the northwest corner of North Mill Street and Jones Street in the City of Lewisville. Existing transmission facilities are located in the immediate area.

An environmental report (ER) which describes the project further and discusses the environmental impacts of the proposed project was prepared by Brazos. RUS has conducted an independent evaluation of the ER and believes that it accurately assesses the impacts of the proposed project. No adverse impacts are expected with the construction of the project. RUS has reviewed and accepted the document as its Environmental Assessment and is making it available for public review. The EA can be reviewed at the address provided above or at the following locations:

Brazos Electric Power Cooperative, Inc., 2404 Lasalle Avenue, Waco, Texas 76702–2585, Telephone: (254) 750–6324

CoServ, 3501 FM 2181, Corinth, Texas 76205–3741, Telephone: (940) 321–4640

Lewisville Public Library, 1197 West Main Street, Lewisville, Texas 75067–3425, Telephone: (972) 219–3570

Questions and comments should be sent to RUS at the address provided. RUS should receive comments on the Environmental Assessment in writing prior to RUS making its environmental determination. Dated: September 2, 1999.

Foreign-Trade Zones Board

[Docket 43–99]

Foreign-Trade Zone 49—Newark/Elizabeth, NJ; Application for Subzone, Firmenich, Inc. (Flavor and Fragrance Products) Plainsboro and Port Newark, NJ

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Port Authority of New York and New Jersey, grantee of FTZ 49, Newark/Elizabeth, NJ, requesting special-purpose subzone status for the flavor and fragrance manufacturing facilities of Firmenich, Inc., located in Plainsboro and Port Newark, New Jersey. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on September 1, 1999.

The Firmenich, Inc. facilities are located at 250 Plainsboro Road (384,220 sq. ft. on 58 acres, 575 employees), Plainsboro and at 150 Firmenich Way (833,041 sq. ft. on 19 acres, 129 employees), Port Newark. The facilities are used to produce a variety of flavor and fragrance products, which are used in perfumes, cosmetics, soaps, detergents, personal care products, prepared foods, soft drinks, dairy foods, pharmaceuticals, dietary foods and confectionery products. Most of the finished products are categorized as flavor and fragrance products (duty rate—zero). The products are blended from numerous natural and synthetic ingredients, including a number of natural compounds not available in the U.S. Foreign-sourced materials may, depending on the product, account for a substantial portion of the finished products’ value. It is estimated that overall foreign-sourced materials account for some 75 percent of total material value.

The foreign-sourced materials which will account for the primary FTZ savings are as follows:

The application indicates that the company may also import under FTZ procedures a wide variety of other flavor and fragrance materials from the following general categories: sugars, gelatins, chlorides, fruit and vegetable extracts and oils, as well as various other natural and synthetic ingredients and products used in production, packaging and distribution of flavor and fragrance products (duty rates range 0–19.6%).

Zone procedures would exempt Firmenich from Customs duty payments on foreign materials used in production for export. On domestic shipments, the company would be able to defer Customs duty payments on foreign materials and choose the duty rate that applies to the finished products (duty free) instead of the rates otherwise applicable to the foreign materials (noted above). The company would also be exempt from duty payments on foreign merchandise that becomes scrap/waste. The application indicates that the savings from zone procedures would help improve the plant’s international competitiveness.

In accordance with the Board’s regulations, a member of the FTZ staff has been appointed examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board’s Executive Secretary at the address below. The closing period for their receipt is November 12, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to November 29, 1999.
