**SUPPLEMENTARY INFORMATION:** On July 19, 1999, as part of its regulatory review program, the Commission published in the **Federal Register** a request for public comments on a notice of proposed rulemaking to amend its Amplifier Rule, 16 CFR part 432 (64 FR 38610). The Amplifier Rule was promulgated on May 3, 1974 (39 FR 15387), to assist consumers in purchasing power amplification equipment for home entertainment purposes by standardizing the measurement and disclosure of various performance characteristics of the equipment. Specifically, the **Federal Register** notice solicited public comments on Commission proposals to amend the Amplifier Rule to: Exempt sellers who make power output claims in media advertising from the Rule's requirement to disclose total rated harmonic distortion and the associated power bandwidth and impedance ratings; clarify the manner in which the Rule's testing procedures apply to self-powered subwoofer-satellite combination speaker systems; and reduce the preconditioning power output requirement in the Rule from one-third of rated power to one-eighth of rated power. Pursuant to the **Federal Register** notice, the comment period on the notice of proposed rulemaking currently ends on September 17, 1999.

On September 7, 1999, the Commission staff received a request for an extension of the comment period from the Consumer Electronics Manufacturers Association ("CEMA"). CEMA has indicated that additional time is required for its members to prepare thorough, thoughtful responses to the proposals and questions

contained in the **Federal Register** notice.

The Commission is aware that some of the issues raised by the **Federal Register** notice are complex and technical. Accordingly, to provide sufficient time for interested parties to prepare useful comments, the Commission has decided to extend the deadline for comments on its notice of proposed rulemaking by twenty-eight (28) days, until October 15, 1999.

**Authority:** 15 U.S.C. 41-58.
