**SUPPLEMENTARY INFORMATION:**

*Title:* Information Collection Request for the National Pretreatment Program (40 CFR part 403), EPA ICR No. 0002.09 (expires October 31, 1999), OMB Control No. 2040-0009. This is a request for review of an extension of a currently approved collection.

*Abstract:* This ICR calculates the burden and costs associated with managing the National Pretreatment Program mandated by sections 402(a) and (b) and 307(b) of the Clean Water Act. This ICR is a renewal of the Revision of the Information Collection Request for the National Pretreatment Program (OMB Control No. 2040-0009, EPA ICR No. 0002.08).

Management of the pretreatment program is the responsibility of the Office of Wastewater Management (OWM) in the Office of Water (OW), Environmental Protection Agency (EPA). The Clean Water Act requires EPA to develop national pretreatment standards to control discharges from Industrial Users (IUs) into Publicly Owned Treatment Works (POTWs). These standards limit the level of

certain pollutants in IU wastewaters. EPA administers the pretreatment program through the National Pollutant Discharge Elimination System (NPDES) permit program. Under the NPDES permit program, EPA may approve State or individual POTW implementation of the pretreatment standards at their respective levels. OWM uses the data collected under the pretreatment program to monitor and enforce compliance with the regulations, as well as to authorize program administration at the State or local (POTW) level. The data collected from IUs includes the mass, frequency, and content of their discharges, their schedules for installing pretreatment equipment, and actual or anticipated discharges of wastes that violate pretreatment standards, have the potential to cause problems at the POTW, or are considered hazardous under the Resource Conservation and Recovery Act (RCRA). States and POTWs applying for approval of pretreatment programs submit data concerning their legal, procedural, and administrative bases for establishing such programs. This information may include surveys of IUs, local limits for pollutant concentration, and schedules for completion of major project requirements. IUs and POTWs submit written reports. These data may then be entered into the NPDES databases by the approved State or EPA.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 12, 1999 (64 FR 17660); no comments were received.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 6.5 hours per response and to require 7.16 hours per respondent for recordkeeping. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* State and local governments and regulated industrial users.

*Estimated Number of Respondents:* 29,517.

*Frequency of Response:* Annually, semi-annually, and on occasion.

*Estimated Total Annual Hour Burden:* 1,347,018 hours.

*Estimated Total Annualized Cost Burden (non-labor costs):* \$40,076,913.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0002.09 and OMB Control No. 2040-0009 in any correspondence.

**ACTION:** Notice of intent to grant petition.

**SUMMARY:** The United States Environmental Protection Agency is announcing our intent to grant the petition of Pioneer Chlor-Alkali, Inc. in St. Gabriel, Louisiana for a site-specific determination of equivalent treatment (DET). This DET would address Pioneer's Remerc process for treating K106 mercury wastes under the Resource Conservation and Recovery Act (RCRA).

The proposed DET would recognize Remerc, a hydrometallurgical process, as an equivalent technology to roasting or retorting with recovery of mercury for reuse, our current land disposal restrictions (LDR) hazardous waste treatment standard for high mercury K106 waste (wastewater treatment sludge from the mercury cell process used in chlorine production). If we grant this DET, Pioneer will be allowed to use Remerc to treat high mercury K106 wastes, and the treatment residuals will be subject to a mercury limit of 0.20 mg/L TCLP.

**DATES:** This DET is effective on October 25, 1999, unless we receive relevant adverse comment by October 14, 1999. If we receive such comment(s), we will publish a timely notice in the **Federal Register** informing the public that this DET will not be automatically granted and indicating the further steps that will be taken.

**ADDRESSES:** Commenters must send an original and two copies of their comments referencing Docket Number F-99-PCAP-FFFFF to: RCRA Docket Information Center, Office of Solid Waste (5305G), U.S. Environmental Protection Agency Headquarters (EPA, HQ), 401 M Street, SW, Washington, DC 20460. Hand deliveries of comments should be made to the Arlington, VA, address below. Comments may also be submitted electronically through the Internet to: *rcra-docket@epamail.epa.gov*.
