

Title: Access Charge Reform—CC Docket No. 96–262 (First Report and Order), Second Order on Reconsideration and Memorandum Opinion and Order, Third Report and Order, and Fifth Report and Order.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 14.

Estimated Time Per Response: 8–2,117 hours per respondent.

Frequency of Response: On occasion reporting requirement, third party disclosure requirement, and other specific date requirements.

Total Annual Burden: 58,319 hours.

Total Annual Cost: \$8,000.

Needs and Uses: The Commission provides detailed rules for implementing the market-based approach, pursuant to which price cap LECs would receive pricing flexibility in the provision of interstate access services as competition for those services develops. The Order grants immediate pricing flexibility to price cap LECs in the form of streamlined introduction of new services, geographic deaveraging of rates for services in the trunking basket, and removal of certain interstate interexchange services from price cap regulation and provides for additional pricing flexibility upon showings.

The information to be collected would be submitted to the FCC by incumbent LECs for use in determining whether the incumbent LECs should receive regulatory relief proposed in the Orders. The information collected under the Second Order on Reconsideration and Memorandum Opinion and Order would be submitted by the LECs to the interexchange carriers (IXCs) for use in developing the most cost-efficient rates and rate structures.
