

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 99-121]

NASA Advisory Council, Life and Microgravity Sciences and Applications Advisory Committee Commercial Advisory Subcommittee; Meeting**AGENCY:** National Aeronautics and Space Administration.**ACTION:** Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council, Life and Microgravity Sciences and Applications Advisory Committee, Commercial Advisory Subcommittee.

DATES: Wednesday, October 20, 1999, 8:00 a.m. to 5:00 p.m.**ADDRESSES:** National Aeronautics and Space Administration, Room MIC-7, 300 E Street, SW, Washington, DC 20546.**FOR FURTHER INFORMATION CONTACT:** Ms. Candace Livingston, Code UP, National Aeronautics and Space Administration, Washington, DC 20546, 202-358-0697.**SUPPLEMENTARY INFORMATION:** The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

- NASA Roles and Responsibilities regarding Commercialization.
- Director, Space Utilization and Product Development's appointment, responsibilities, priorities, and his view of the CAS role.
- Assistant to the Administrator for Commercialization's role and responsibilities.
- Performance Targets and the CAS responsibility to evaluate them.
- Report on the Ad Hoc Committee to review the proposed Environmental Systems Commercial Space Technology Center. Develop criteria for evaluating business plans.
- Joint meeting with the Life Sciences Advisory Committee on Wednesday morning, October 20 to discuss what the 30% reserve for commercial utilization of the ISS actually means, and what plans and opportunities there are to avoid redundancies and leverage resources of both commercial and "scientific" payloads and experiments.
- Environmental Commercial Space Centers.
- Leveraging and identifying opportunities for joint research with Scientific Communities.

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: September 23, 1999.

Matthew M. Crouch,

*Advisory Committee Management Officer,
National Aeronautics and Space Administration.*

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-482]

Wolf Creek Nuclear Operating Corporation; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Wolf Creek Nuclear Operating Corporation (the licensee) to withdraw its June 30, 1999, application for proposed amendment to Facility Operating License No. NPF-42 for the Wolf Creek Nuclear Generating Station, Unit 1, located in Coffey County, Kansas.

The proposed amendment would have revised Technical Specification 3.7.5 regarding the allowed value of the ultimate heat sink temperature. The Commission issued Amendment No. 125 on July 8, 1999, that revised the maximum allowed value of the ultimate heat sink temperature to 94°F. In the June 30, 1999, letter, the licensee proposed a maximum plant inlet water temperature of 95°F; however Amendment No. 125 only approved a maximum value of 94°F to allow the amendment to be within the scope of the no significant hazards considerations published in the **Federal Register** on February 24, 1999 (64 FR 9203) and to be issued before the hot weather period of July and August 1999 in and around the Wolf Creek Generating Station. The Commission issued a Notice of Consideration of Issuance of Amendment for the June 30, 1999, request that was published in the **Federal Register** on July 15, 1999 (64 FR 38221). However, by conference call of September 8, 1999, the licensee withdrew the proposed change because the hot weather period of 1999 had past.

For further details with respect to this action, see the application for amendment dated June 30, 1999. The above document is available for public inspection at the Commission's Public Document Room, the Gelman Building,

2120 L Street, NW., Washington, DC, and at the local public document rooms located at the Emporia State University, William Allen White Library, 1200 Commercial Street, Emporia, Kansas 66801 and the Washburn University School of Law Library, Topeka, Kansas 66621.

Dated at Rockville, Maryland, this 22nd day of September 1999.

For the Nuclear Regulatory Commission.

Jack N. Donohew,

Senior Project Manager, Section 2, Project Directorate IV and Decommissioning Division of Licensing Project Management, Office of Nuclear Reactor Regulation.
