

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****Notice of an Amendment of License and Soliciting Comments, Motions To Intervene, and Protests**

September 23, 1999.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

- a. *Application Type:* Amendment of License.
- b. *Project No.:* 5679-019.
- c. *Date Filed:* July 6, 1999.
- d. *Applicant:* Toutant Hydropower, Inc.
- e. *Name of Project:* Toutant Water Power Project.
- f. *Location:* On the Quinebaug River, Windham County, Connecticut.
- g. *Filed Pursuant to:* 18 CFR 4.200.
- h. *Applicant Contact:* Roland Toutant, Toutant Hydropower, Inc., 80 Bungay Hill Road, Woodstock, CT 06281, (860) 974-2099.
- i. *FERC Contact:* Any questions on this notice should be addressed to Mohamad Fayyad at mohamad.fayyad@ferc.fed.us or 202-219-2665.
- j. *Deadline for filing comments and/or motions:* October 29, 1999.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

Please include the project number (5679-019) on any comments or motions filed.

k. *Description of Filing:* By order issued March 10, 1998, the Commission authorized the licensee to increase the generating capacity of the project by adding another generating station with an installed capacity of 234 kW. The proposed station is an existing non-operational facility, which is located in the Powhattan Mill building across the river from the project's 400-kW powerhouse. In its filing on July 6, 1999, the licensee says that currently the addition of the 234 kW of generating capacity is not economically feasible. Therefore, the licensee requests an amendment to revert its license back to its condition prior to the March 10, 1998 order. The construction of the additional capacity has never begun.

l. *Locations of the application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, DC 20426, or by calling

(202) 208-1371. The application may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm>, (call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item "h" above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those whole file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "RECOMMENDATIONS FOR TERMS AND CONDITIONS," "PROTEST", OR "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NW, Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Linwood A. Watson, Jr.,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6446-4]

Agency Information Collection Activities: Submission for OMB Review; Comment Request, New Source Performance Standard (NSPS) for Surface Coating of Beverage Cans

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: New Source Performance Standard (NSPS) for Surface Coating of Beverage Cans, 40 CFR part 60, subpart WW, OMB Number 2060-0001, expiration 1/31/00. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 29, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0663.07.

SUPPLEMENTARY INFORMATION:

Title: New Source Performance Standard (NSPS) for Surface Coating of Beverage Cans, 40 CFR part 60, subpart WW, OMB Number 2060-0001, expiration 1/31/00. This is a request for extension of a currently approved collection.

Abstract: The NSPS for Surface Coating of Beverage Cans were proposed on November 26, 1980, and promulgated on August 25, 1983. These standards apply to each beverage can surface coating operation in which organic coatings are applied (exterior base coat operations, over varnish coating operations, and inside spray coating operations) that commenced construction, modification or reconstruction after November 26, 1980. Approximately 18 sources are currently subject to the standard, and it is estimated that 2 sources per year will become subject to the standard while an equal number will go off-line during this time period. It is further assumed that there is an average of four affected facilities per plant. Volatile Organic Compounds (VOCs) are the pollutants
