### Rural Utilities Service

#### Record of Decision: Lincoln-Pipestone Rural Water; Existing System North/Lyon County Phase and Northeast Phase Expansion; Environmental Impact Statement

AGENCY: Rural Utilities Service, USDA.

ACTION: Record of decision.

The Rural Utilities Service (RUS) has concluded an Environmental Impact Statement (EIS) it prepared for the Lincoln-Pipestone Rural Water (LPRW), Existing System North/Lyon County (ESN/LC) Phase and Northeast Phase Expansion proposal in southwest Minnesota and is announcing its decision in this Record of Decision (ROD). RUS' decision is to approve LPRW's application for financial assistance to construct the Northeast Phase Expansion proposal. This approval is predicated on LPRW's acceptance of a set of conditions and completion of mitigation measures developed as part of and outlined in RUS' preferred alternative. Prior to loan/grant approval, LPRW must be in compliance with all conditions of the water appropriation permits issued by the Minnesota Department of Natural Resources (MDNR). Upon loan/grant approval and prior to the release of any funds, LPRW must prepare and complete a Water Resource Management Plan (WRMP) to RUS' satisfaction.

The purpose of the EIS was to evaluate the potential environmental impacts of a multiple-phase construction proposal where RUS has and proposes to provide financial assistance for the development and expansion of a public rural water system. The applicant for this proposal is a public body named LPRW and whose main offices are located in Lake Benton, Minnesota. Specific project activities are and have included the development of groundwater sources and production well fields and the construction of water treatment facilities and water distribution networks. The counties in Minnesota affected by this proposal include Yellow Medicine, Lincoln, and Lyon Counties and Deuel County in South Dakota.
