Office of Inspector General

Publication of the OIG Compliance Program, Guidance for Hospices

AGENCY: Office of Inspector General (OIG), HHS.

ACTION: Notice.

SUMMARY: This **Federal Register** notice sets forth the recently issued Compliance Program Guidance for Hospices developed by the Office of Inspector General (OIG). The OIG has previously developed and published compliance program guidance focused on several other areas and aspects of the health care industry. We believe that the development and issuance of this compliance program guidance for hospices will continue to serve as a positive step toward promoting a higher level of ethical and lawful conduct throughout the entire health care industry.

FOR FURTHER INFORMATION CONTACT: Michael Shaw, Office of Counsel to the Inspector General, (202) 619–2078.

SUPPLEMENTARY INFORMATION:

Background

The creation of compliance program guidance remains a major initiative by the OIG in its efforts to engage the health care community in combating fraud and abuse. In formulating

compliance guidance, the OIG has worked closely with the Health Care Financing Administration (HCFA), the Department of Justice (DOJ) and various sectors of the health care industry to provide clear guidance to those segments of the industry that are interested in reducing fraud and abuse within their organizations. The five previously-issued compliance program guidances were focused on the hospital industry; home health agencies; clinical laboratories; third-party medical billing companies; and the durable medical equipment, prosthetics, orthotics and supply industry. The development of these types of compliance program guidance is based on our belief that a health care provider can use internal controls to more efficiently monitor adherence to applicable statutes, regulations and program requirements.

Guidance for the Hospice Industry

On January 13, 1999, the OIG published a solicitation notice (64 FR 2228) seeking information and recommendations for developing guidance for the hospice industry. In response to that solicitation notice, the OIG received numerous comments from various parts of the industry and from their representatives. After careful consideration of those initial comments, and in an effort to ensure that all parties had a reasonable opportunity to provide input into a final product, the OIG published draft guidance for the hospice industry on July 21, 1999 (64 FR 39150) for further comment and recommendations.

Elements for an Effective Compliance Program

Through experience, the OIG has identified seven fundamental elements
