

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 99-AGL-41]

Modification of Class E Airspace; Cable Union, WI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace at Cable Union, WI. A Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) to Runway (Rwy) 34 has been developed for Cable Union Airport. Controlled airspace extending upward from 700 to 1200 feet above ground level (AGL) is needed to contain aircraft executing the approach. This action decreases the radius of the existing controlled airspace and redefines a portion of the existing controlled airspace using an additional navigation facility for this airport.

EFFECTIVE DATE: 0901 UTC, December 30, 1999.

FOR FURTHER INFORMATION CONTACT: Denis C. Burke, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:**History**

On Tuesday, July 13, 1999, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Cable Union, WI (64 FR 37715). The proposal was to add controlled airspace extending upward from 700 to 1200 feet AGL to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. One comment strongly supporting the proposal was received from the Wisconsin Department of Transportation. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9F dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Cable Union, WI, to accommodate aircraft executing the proposed GPS Rwy 34 SIAP at Cable Union Airport by modifying the existing controlled airspace. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 95665, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

* * * * *

AGL WI E5 Cable Union, WI (Revised)

Cable Union Airport, WI

(Lat. 46°11'39" N., long. 91°14'47" W.)

Hayward VOR/DME

(Lat. 46°01'08" N., long. 91°26'47" W.)

Seeley NDB

(Lat. 46°06'37" N., long. 91°23'02" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the Cable Union Airport, and within 3.0 miles each side of the Hayward VOR/DME 038° radial extending from the 6.4-mile radius to 10.0 miles southwest of the airport, and within 1.8 miles each side of the Seeley NDB 226° bearing extending from the 6.4-mile radius to 7.6 miles southwest of the airport, excluding that airspace within the Hayward, WI, Class E airspace area.

14 CFR Part 71

[Airspace Docket No. 99-AAL-10]

Establishment of Class E Airspace; St. Michael, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at St. Michael, AK. The establishment of Global Positioning System (GPS) instrument approach procedures at St. Michael Airport made this action necessary. The St. Michael Airport status changes from Visual Flight Rules (VFR) to Instrument Flight Rules (IFR). This rule provides adequate controlled airspace for aircraft flying IFR procedures at St. Michael, AK.

EFFECTIVE DATE: 0901 UTC, November 4, 1999.

FOR FURTHER INFORMATION CONTACT: Bob Durand, Operations Branch, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-5898; fax: (907) 271-2850; email: Bob.Durand@faa.gov. Internet address: <http://www.alaska.faa.gov/at> or at address <http://162.58.28.41/at>.

SUPPLEMENTARY INFORMATION:

History

On July 30, 1999, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish the Class E airspace at St. Michael, AK, was published in the **Federal Register** (64 FR 41360). The proposal was

necessary due to the establishment of GPS instrument approaches at St. Michael, AK. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments to the proposal were received; thus, the rule is adopted as written.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9F, *Airspace Designations and Reporting Points*, dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1 (63 FR 50139; September 21, 1998). The Class E airspace designations listed in this document will be revised and published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 establishes the Class E airspace at St. Michael, AK, through the establishment of GPS instrument approaches. The area will be depicted on aeronautical charts for pilot reference. The intended effect of this proposal is to provide adequate controlled airspace for IFR operations at St. Michael, AK.

The FAA has determined that these proposed regulations only involve an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71— DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9F, *Airspace Designations and Reporting Points*, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

* * * * *

AAL AK E5 St. Michael, AK [New]

St. Michael Airport

(Lat. 62°29'24" N., long. 162°06'37" W.)

Fort Davis NDB

(Lat. 64°29'41" N., long. 165°18'50" W.)

North River NDB

(Lat. 63°54'28" N., long. 160°48'43" W.)

That airspace extending upward from 700 feet above the surface within 5.8-mile radius of the St. Michael Airport; and that airspace extending upward from 1,200 feet above the surface within an area bounded by lat. 63°54'30" N long. 161°44'20" W, to lat. 63°41'00" N long. 161°04'30" W, to lat. 63°02'00" N long. 162°23'05" W, to lat. 62°50'00" N long. 164°00'00" W, to lat. 63°05'00" N long. 164°00'00" W, to the beginning point; and that airspace 4 miles northwest of a line from North River NDB to lat. 63°35'44" N long. 161°44'03" W; and that airspace 4 miles either side of a line from Fort Davis NDB to lat. 63°22'14" N long. 162°33'13" W; and that airspace 4 miles either side of a line from Fort Davis NDB to lat. 63°41'11" N long. 162°02'50" W; excluding that airspace within the Nome, AK, Class E airspace area.

[Airspace Docket No. 99–AAL–11]

Establishment of Class E Airspace; Platinum, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Platinum, AK. The establishment of a Global Positioning System (GPS) instrument approach procedure at Platinum Airport made this action necessary. The Platinum Airport status changes from Visual Flight Rules (VFR) to Instrument Flight Rules (IFR). This rule provides adequate controlled airspace for aircraft flying IFR procedures at Platinum, AK.

EFFECTIVE DATE: 0901 UTC, November 4, 1999.

FOR FURTHER INFORMATION CONTACT: Bob Durand, Operations Branch, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513–7587; telephone number (907) 271–5898; fax: (907) 271–2850; email: Bob.Durand@faa.gov. Internet address: <http://www.alaska.faa.gov/at> or at address <http://162.58.28.41/at>.

SUPPLEMENTARY INFORMATION:

History

On July 30, 1999, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace at Platinum, AK, was published in the **Federal Register** (64 FR 41359). The proposal was necessary due to the establishment of a GPS instrument approach to runway (RWY) 06 and RWY 24 at Platinum, AK. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments to the proposal were received. The Kipnuk VOR and the Togiak NDB coordinates however, were published with errors. The Kipnuk VOR coordinates should read “lat. 59°56'34" N., long. 164°02'04" W.” and the Togiak NDB coordinates should read, “lat. 59°03'51" N., long. 160°22'27" W.” The Federal Aviation Administration has determined that these changes are editorial in nature and will not increase the scope of this rule. Except for the non-substantive change just discussed, the rule is adopted as written.

The area will be depicted on aeronautical charts for pilot reference.
