Fisheries Off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; Trip Limit Adjustments

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Fishing restrictions; request for comments.

SUMMARY: NMFS announces changes to the restrictions for the Pacific Coast groundfish limited entry fisheries for the *Sebastes* complex, canary rockfish, widow rockfish, and trawl-caught sablefish coastwide; yellowtail rockfish north of Cape Mendocino; daily trip limit nontrawl sablefish north of 36° N. lat.; and chilipepper and splitnose rockfish south of Cape Mendocino. NMFS announces changes to the open access restrictions for the *Sebastes* complex, bocaccio, widow rockfish, and chilipepper rockfish south of Cape Mendocino; and daily trip limits for nontrawl sablefish north of 36° N. lat. NMFS also announces the coastwide closure for lingcod taken with any open

access gear. This action also announces the last cumulative trip limit period in 1999 for the "B" platoon, those limited entry trawl vessels designated to take their cumulative trip limits 2 weeks out of phase with the rest of the fleet. These actions, which are authorized by the Pacific Coast Groundfish Fishery Management Plan (FMP), are intended to extend the fisheries as long as possible during the year while keeping landings within the 1999 optimum yields (OYs) and allocations for these species.

DATES: Effective 0001 hours local time (l.t.) October 1, 1999. For limited entry vessels operating in the B platoon, effective 0001 hours l.t. October 16, 1999. These changes are in effect, unless modified, superseded, or rescinded, until the effective date of the 2000 annual specifications and management measures for the Pacific Coast groundfish fishery, which will be published in the **Federal Register**. Comments will be accepted through October 25, 1999.

ADDRESSES: Submit comments to William Stelle, Jr., Administrator, Northwest Region (Regional Administrator), NMFS, 7600 Sand Point Way N.E., BIN C15700, Bldg. 1, Seattle, WA 98115-0070; or to Rodney McInnis, Acting Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213.

FOR FURTHER INFORMATION CONTACT: Katherine King or Becky Renko, Northwest Region, NMFS, 206-526-6140.

SUPPLEMENTARY INFORMATION: The following changes to current management measures were recommended by the Pacific Fishery Management Council (Council), in consultation with the States of Washington, Oregon, and California, at its September 13 through 17, 1999, meeting in Portland, OR. The adjusted trip limits are calculated to achieve, but not exceed, the OYs and allocations for the groundfish fishery, so as to provide a year-long fishing opportunity for at least some groundfish species. Pacific coast groundfish landings will be monitored throughout the year, and further adjustments to the cumulative trip limits may be made as necessary.

As previously announced in the **Federal Register** (64 CFR 1316 January 8, 1999) the third trip limit fishing phase of 1999 will begin on October 1, 1999. At this time, the 2-month cumulative trip limits that applied to limited entry landings during the second fishing phase of 1999, April 1 to September 30, 1999, will convert to 1-
