

the American people and trade community. Data standardization within the ITDS will bring down barriers between information systems and reduce data collection costs.

Pilot Strategy—The strategy for the ITDS pilot is based on phased development and inter-agency involvement in identifying resource needs, identified to the inter-agency Board of Directors. The ITDS will test each information collection through a pilot program (44 U.S.C. 3506(c)(1)(A)(v); 5 CFR 1320.8(a)(6)). The ITDS office through Memoranda of Understandings will establish pilot collections.

Reduced Burden—A goal of the ITDS is to reduce unnecessary paperwork burden on the American business community. As the ITDS evolves from pilot to implementation, burden on U.S. businesses will be greatly reduced; both because of the removal of unnecessary duplication but also because the ITDS will to the extent possible utilize information that businesses use in the course of their activities.

Data Security—In the process of assuring protection for confidentiality, the ITDS and agencies will certify that steps will be taken to safeguard the integrity of and the confidentiality of information collected (5 CFR 1320.5(d)(2)(viii)).

Current Actions: This is a request to permit the United States Treasury Department along with the Federal agencies participating in the ITDS to collect the data for these pilots for a one year period. Volunteers will be sought to participate in the ITDS pilot in order to provide traders with the opportunity to experiment with the advanced technologies and procedures with minimal expense. Through their evaluation of ITDS, they will have input into future trade processes, requirements and the design, development, and deployment of the ITDS.

Type of Review: Extension.

Affected Public: Importers, exporters, customs house brokers, and carriers who volunteer to participate in ITDS.

Estimated Number of Respondents: There are approximately 120 U.S. participants.

Estimated Time per Respondents: Each response will not exceed 3.5 minutes.

Estimated Total Annual Burden Hours: 0 (No additional burden hours required. Pilot removes the need for parallel processing as stated in original notice of November 25, 1996. Pilot replaces burden hours for Customs document CF 3461-ALT 1515-0069.)

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) evaluate whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information and the prototype will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of this information to be collected; (d) ways to minimize the burden of information on respondents, including the use of automated collection techniques or other forms of information technology; (e) estimates of capital start-up costs and costs of operation, maintenance, and purchase of services to provide information.
